

Income from U.S. Government Obligations

Some states do not tax their residents on income from a mutual fund that is earned from U.S. Government Obligations. The following table shows the percentage of total ordinary income dividends shown in Box 1 of your 2024 Tax Form that were attributable to interest earned from direct U.S. Government Obligations:

<u>Fund Name</u>	<u>% of Ordinary Income Attributable to Direct U.S. Govt. Obligation (see Box 1)</u>
Alpha Architect 1-3 Month Box ETF	1.06%

Depending on your state's personal income tax laws, you may be entitled to declare the above portion of your 2024 ordinary income dividends (Box 1) as tax-exempt income on your state personal income tax return. However, some states do not allow the "pass through" of this exempt-interest income unless the percentage earned from U.S. Government Obligations exceeds certain thresholds or unless other requirements are met. Please consult your tax adviser or state authorities if you have any questions regarding the percentage of income you can exclude when calculating your state income tax.
