

ROCKCREEK GLOBAL EQUALITY ETF

Ticker Symbol: RCGE

Listed on The Nasdaq Stock Market LLC

STATEMENT OF ADDITIONAL INFORMATION

EA SERIES TRUST

May 31, 2026

This Statement of Additional Information (“SAI”) describes the **RockCreek Global Equality ETF** (the “Fund”), a series of the EA Series Trust, formerly known as Alpha Architect ETF Trust (the “Trust”). Shares of the Fund are listed and traded on The Nasdaq Stock Market LLC (the “Exchange”). Empowered Funds, LLC dba EA Advisers (the “Adviser”) serves as the investment adviser to the Fund, and Rock Creek Group, LLC (“Sub-Adviser”) serves as sub-adviser to the Fund. PINE Distributors LLC (the “Distributor”) serves as the Distributor for the Fund.

Shares of the Fund are neither guaranteed nor insured by the U.S. Government.

This SAI, dated May 31, 2026 as supplemented from time to time, is not a prospectus. It should be read in conjunction with the Fund’s Prospectus, dated May 31, 2026, as supplemented from time to time, which incorporates this SAI by reference. Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted. A copy of the Prospectus may be obtained without charge by writing to the Distributor, calling (215) 330-4476 or visiting <https://rockcreeketfs.com/>.

The most recent [Form N-CSR](#) for the Fund, which includes the Fund’s audited financial statements dated January 31, 2026, is incorporated by reference into this SAI. A copy of the Fund’s annual and semi-annual reports may be obtained without charge by writing to Empowered Funds, LLC dba EA Advisers, 3803 West Chester Pike, Suite 150, Newtown Square, PA 19073, calling (215) 330-4476 or visiting <https://rockcreeketfs.com/>.

GLOSSARY

The following terms are used throughout this SAI, and have the meanings used below (note that various other terms are defined in the text of this SAI):

“**1933 Act**” means the Securities Act of 1933, as amended.

“**1934 Act**” means the Securities Exchange Act of 1934, as amended.

“**Adviser**” means Empowered Funds, LLC dba EA Advisers.

“**Authorized Participant**” means a broker-dealer or other participant in the Continuous Net Settlement System of the National Securities Clearing Corporation (NSCC) or a participant in DTC with access to the DTC system, and who has executed an agreement with the Distributor that governs transactions in the Fund’s Creation Units.

“**Balancing Amount**” means an amount equal to the difference between the NAV of a Creation Unit and the market value of the In-Kind Creation (or Redemption) Basket, used to ensure that the NAV of a Fund Deposit (or Redemption) (other than the Transaction Fee), is identical to the NAV of the Creation Unit being purchased.

“**Board**” or “**Trustees**” means the Board of Trustees of the Trust.

“**Business Day**” means any day on which the Trust is open for business.

“**Cash Component**” means an amount of cash consisting of a Balancing Amount calculated in connection with creations.

“**Cash Redemption Amount**” means an amount of cash consisting of a Balancing Amount calculated in connection with redemptions.

“**Code**” means the Internal Revenue Code of 1986, as amended.

“**Creation Unit**” means an aggregation of a specified number of Shares that the Fund issues and redeems on a continuous basis at NAV.

“**Distributor**” means PINE Distributors LLC.

“**Dodd-Frank Act**” means the Dodd-Frank Wall Street Reform and Consumer Protection Act.

“**DTC**” means the Depository Trust Company.

“**Exchange**” means The Nasdaq Stock Market LLC.

“**ETF**” means an exchange-traded fund.

“**FINRA**” means the Financial Industry Regulatory Authority.

“**Fund**” means the series of the Trust described in this SAI: the RockCreek Global Equality ETF.

“**Fund Deposit**” means the In-Kind Creation Basket and Cash Component necessary to purchase a Creation Unit from the Fund.

“**Fund Redemption**” means the In-Kind Redemption Basket and Cash Redemption Amount received in connection with the redemption of a Creation Unit.

“**In-Kind Creation Basket**” means the basket of securities to be deposited to purchase Creation Units of the Fund.

“**In-Kind Redemption Basket**” means the basket of securities a shareholder will receive upon redemption of a Creation Unit.

“**Investment Company Act**” or “**1940 Act**” means the Investment Company Act of 1940, as amended.

“**IRS**” means the Internal Revenue Service.

“**NAV**” means the net asset value of the Fund.

“**NSCC**” means the National Securities Clearing Corporation.

“**NYSE**” means the New York Stock Exchange, Inc.

“**Prospectus**” means the Funds’ Prospectus, dated May 31, 2026, as amended and supplemented from time to time.

“**SAI**” means this Statement of Additional Information, dated May 31, 2026, as amended and supplemented from time to time.

“**SEC**” means the United States Securities and Exchange Commission.

“*Shares*” means the shares of the Fund.

“*Sub-Adviser*” means Rock Creek Group, LLC (“Rock Creek”).

“*Transaction Fee*” is a fee that may be imposed to compensate the Trust or its custodian for costs incurred in connection with transactions for Creation Units. The Transaction Fee, when applicable, is comprised of a flat (or standard) fee and may include a variable fee. For the Transaction Fees applicable to the Fund, see “Transaction Fees” in this SAI.

“*Trust*” means the EA Series Trust (formerly known as Alpha Architect ETF Trust), a Delaware statutory trust.

TRUST AND FUND OVERVIEW

The Trust is a Delaware statutory trust formed on October 11, 2013. The Trust is an open-end management investment company registered under the Investment Company Act. The investment objective of the Fund is to achieve long-term capital appreciation. The offering of the Shares is registered under the 1933 Act.

This SAI relates only to the following Fund: RockCreek Global Equality ETF.

Diversification

The Fund is a non-diversified ETF. As a non-diversified fund, the Fund is permitted to invest a larger percentage of its assets in fewer issuers than diversified funds. Thus, the Fund may be more susceptible to adverse developments affecting any single issuer held in its portfolio and may be more susceptible to greater losses because of these developments.

EXCHANGE LISTING AND TRADING

Shares of the Fund are listed and traded on the Exchange. Shares trade on the Exchange or in secondary markets at prices that may differ from their NAV, because such prices may be affected by market forces (such as supply and demand for Shares). As is the case with other securities traded on an exchange, when you buy or sell Shares on the Exchange or in the secondary markets your broker will normally charge you a commission or other transaction charges. Further, the Trust reserves the right to adjust the price of Shares in the future to maintain convenient trading ranges for investors (namely, to maintain a price per Share that is attractive to investors) by share splits or reverse share splits, which would have no effect on the NAV.

There can be no assurance that the requirements of the Exchange necessary to maintain the listing of Shares will continue to be met. The Exchange may, but is not required to, remove the Shares from listing if: (i) following the initial 12-month period beginning at the commencement of trading of the Fund, there are fewer than 50 beneficial owners of the Shares for 30 or more consecutive trading days, or (ii) such other event shall occur or condition exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares from listing and trading upon termination of the Fund.

The Fund is not sponsored, endorsed, sold or promoted by the Exchange. The Exchange makes no representation or warranty, express or implied, to the owners of Shares or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Fund to achieve its objectives. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Fund.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Board has adopted a policy regarding the disclosure of information about the Fund’s portfolio securities. Under the policy, portfolio holdings of the Fund, which will form the basis for the calculation of NAV on a Business Day, are publicly disseminated prior to the opening of trading on the Exchange that Business Day through financial reporting or news services, including the website <https://rockcreeketfs.com/>. In addition, each Business Day a portfolio composition file, which displays the In-Kind Creation Basket and Cash Component, is publicly disseminated prior to the opening of the Exchange via the NSCC.

INVESTMENT POLICIES AND RESTRICTIONS

The Trust has adopted the following investment restrictions as fundamental policies with respect to the Fund. These restrictions cannot be changed with respect to the Fund without the approval of the holders of a majority of the Fund’s outstanding voting securities. For the purposes of the 1940 Act, a “majority of outstanding shares” means the vote of the lesser of: (1) 67% or more of the voting securities of the Fund present at the meeting if the holders of more than 50% of the Fund’s outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of the Fund.

The investment policies enumerated in this section may be changed with respect to the Fund only by a vote of the holders of a majority of the Fund's outstanding voting securities, except as noted below:

1. The Fund may not borrow money, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
2. The Fund may not issue senior securities, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
3. The Fund may not engage in the business of underwriting securities except to the extent that the Fund may be considered an underwriter within the meaning of the 1933 Act in the acquisition, disposition or resale of its portfolio securities or in connection with investments in other investment companies, or to the extent otherwise permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
4. The Fund may not purchase or sell real estate, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
5. The Fund may not purchase or sell physical commodities, unless acquired as a result of ownership of securities or other instruments, and provided that this limitation does not prevent the Fund from (i) purchasing or selling securities of companies that purchase or sell commodities or that invest in commodities; (ii) engaging in any transaction involving currencies, options, forwards, futures contracts, options on futures contracts, swaps, hybrid instruments or other derivatives; or (iii) investing in securities, or transacting in other instruments, that are linked to or secured by physical or other commodities.
6. The Fund may not make loans, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
7. The Fund will not concentrate its investments in a particular industry or group of industries, as that term is used in the Investment Company Act.

The following notations are not considered to be part of the Fund's fundamental investment limitations and are subject to change without shareholder approval. If a percentage limitation is satisfied at the time of investment, a later increase or decrease in such percentage resulting from a change in the value of the Fund's investments will not constitute a violation of such limitation. Similarly, with respect to the Fund's fundamental investment limitations and any other policies applicable to a Fund investment (e.g., policies adopted with respect to Rule 35d-1 under the 1940 Act (the "Names Rule") or minimum or maximum investment exposures specified in the Prospectus), an increase in the quantity (e.g., number of shares) of a particular investment will not constitute a violation of such limitation or policy if the increase in quantity did not result in an increase in the weight of the applicable investment within the Fund's portfolio. Thus, the Fund may continue to hold a security even though it causes the Fund to exceed a percentage limitation because of fluctuation in the value of the Fund's assets, except that any borrowing by the Fund that exceeds the fundamental investment limitations stated above must be reduced to meet such limitations within the period required by the Investment Company Act or the relevant rules, regulations or interpretations thereunder, as described below.

With respect to the fundamental investment limitation relating to borrowing set forth in (1) above, pursuant to Section 18(f)(1) of the Investment Company Act, the Fund may not issue any class of senior security or sell any senior security of which it is the issuer, except that the Fund shall be permitted to borrow from any bank so long as immediately after such borrowings, there is an asset coverage of at least 300% and that in the event such asset coverage falls below this percentage, the Fund shall reduce the amount of its borrowings, within three days, to an extent that the asset coverage shall be at least 300%.

With respect to the fundamental investment restriction regarding real estate set forth in (4) above, the Fund will not make direct investments in real estate unless acquired as a result of ownership of securities or other instruments. Although the Fund may purchase and sell other interests in real estate including securities which are secured by real estate, or securities of companies which make real estate loans or own, or invest or deal in, real estate.

With respect to the fundamental investment limitation relating to lending set forth in (6) above, this means that the Fund may not make loans if, as a result, more than 33 1/3% of its total assets would be lent to other parties. The fundamental investment limitation relating to lending restricts, but does not prevent entirely, the Fund's (i) lending of portfolio securities, (ii) purchase of debt securities, other debt instruments, loan participations and/or engaging in direct corporate loans in accordance with its investment goals and policies, and (iii) use of repurchase agreements to the extent the entry into a repurchase agreement is deemed to be a loan.

With respect to the fundamental investment limitation relating to concentration set forth in (7) above, the Investment Company Act does not define what constitutes "concentration" in an industry. The SEC staff has taken the position that investment of more than

25% of the Fund's total assets in one or more issuers conducting their principal activities in the same industry or group of industries constitutes concentration. It is possible that interpretations of concentration could change in the future.

For purposes of applying the limitation set forth in the concentration policy, the Fund, with respect to its equity holdings, may use the FactSet Revere Business Industry Classification System, Standard Industrial Classification (SIC) Codes, North American Industry Classification System (NAICS) Codes, MSCI Global Industry Classification System, FTSE/Dow Jones Industry Classification Benchmark (ICB) system or any other reasonable industry classification system (including systems developed by the Adviser and/or the Sub-Adviser) to identify each industry. Securities of the U.S. government (including its agencies and instrumentalities), tax-exempt securities of state or municipal governments and their political subdivisions (and repurchase agreements collateralized by government securities), and securities of other investment companies are not considered to be issued by members of any industry, except as noted below. In addition, exchange-traded products or other pooled investment vehicles whose primary exposure is to physical commodities or commodity prices (such as funds that hold physical gold or other commodities) will not be treated as securities issued by members of any industry for purposes of the Fund's concentration policy. The Fund will look through a private activity municipal debt security whose principal and interest payments are derived principally from the assets and revenues of a non-governmental entity in order to determine the industry to which the investments should be allocated when determining the Fund's compliance with its concentration policies. With respect to the Fund's investment in underlying investment companies, the Fund will consider the holdings of other investment companies for which the Adviser serves as investment adviser when determining the Fund's compliance with its concentration policies. The Fund's method of applying the limitation set forth in its concentration policy may differ from the methods used by the Trust's other series.

INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES AND RISKS

The investment objective, principal strategies of, and risks of investing in the Fund are described in the Prospectus. Unless otherwise indicated in the Prospectus or this SAI, the investment objective and policies of the Fund may be changed without shareholder approval.

Securities Lending

The Fund may make secured loans of its portfolio securities; however, securities loans will not be made if, as a result, the aggregate amount of all outstanding securities loans by the Fund exceeds 33 1/3% of its total assets (including the market value of collateral received). For purposes of complying with the Fund's investment policies and restrictions, collateral received in connection with securities loans is deemed an asset of the Fund to the extent required by law.

To the extent the Fund engages in securities lending, securities loans will be made to broker-dealers that the Adviser believes to be of relatively high credit standing pursuant to agreements requiring that the loans continuously be collateralized by cash, liquid securities, or shares of other investment companies with a value at least equal to the market value of the loaned securities. As with other extensions of credit, the Fund bears the risk of delay in the recovery of the securities and of loss of rights in the collateral should the borrower fail financially. The Fund also bears the risk that the value of investments made with collateral may decline.

For each loan, the borrower usually must maintain with the Fund's custodian collateral with an initial market value at least equal to 102% of the market value of the domestic securities loaned (or 105% of the market value of foreign securities loaned), including any accrued interest thereon. Such collateral will be marked-to-market daily, and if the coverage falls below 100%, the borrower will be required to deliver additional collateral equal to at least 102% of the market value of the domestic securities loaned (or 105% of the foreign securities loaned).

The Fund retains all or a portion of the interest received on investment of the cash collateral or receives a fee from the borrower. The Fund also continues to receive any distributions paid on the loaned securities. The Fund seeks to maintain the ability to obtain the right to vote or consent on proxy proposals involving material events affecting securities loaned. However, the Fund bears the risk of delay in the return of the security, impairing the Fund's ability to vote on such matters. The Fund may terminate a loan at any time and obtain the return of the securities loaned within the normal settlement period for the security involved.

The Adviser will retain lending agents on behalf of the Fund that are compensated based on a percentage of the Fund's return on its securities lending. The Fund may also pay various fees in connection with securities loans, including shipping fees and custodian fees.

Preferred Stocks

The Fund may invest in exchange-listed preferred stocks. Preferred stocks include convertible and non-convertible preferred and preference stocks that are senior to common stock. Preferred stocks are equity securities that are senior to common stock with respect to the right to receive dividends and a fixed share of the proceeds resulting from the issuer's liquidation. Some preferred stocks also entitle their holders to receive additional liquidation proceeds on the same basis as holders of the issuer's common stock, and thus

represent an ownership interest in the issuer. Depending on the features of the particular security, holders of preferred stock may bear the risks disclosed in the Prospectus or this SAI regarding equity or fixed income securities.

Foreign Investments

Foreign Market Risk. Foreign security investment or exposure involves special risks not present in U.S. investments that can increase the chances that the Fund will lose money. In particular, the Fund is subject to the risk that because there are generally fewer investors on foreign exchanges and a smaller number of shares traded each day, it may be difficult for the Fund to buy and sell securities, or increase or decrease exposures, on those exchanges. In addition, prices of foreign securities may fluctuate more than prices of securities traded in the U.S.

Foreign Economy Risk. The economies of certain foreign markets often do not compare favorably with that of the U.S. with respect to such issues as growth of gross domestic product, reinvestment of capital, resources, and balance of payments positions. Certain foreign economies may rely heavily on particular industries or foreign capital and are more vulnerable to diplomatic developments, the imposition of economic sanctions against a particular country or countries, changes in international trading patterns, trade barriers, and other protectionist or retaliatory measures. Investments in foreign markets may also be adversely affected by governmental actions such as the imposition of capital controls, nationalization of companies or industries, expropriation of assets, or the imposition of punitive taxes. In addition, the governments of certain countries may prohibit or impose substantial restrictions on foreign investing in their capital markets or in certain industries. Any of these actions could severely affect security prices, impair the Fund's ability to purchase or sell foreign securities, or obtain exposure to them, or transfer the Fund's assets back into the U.S., or otherwise adversely affect the Fund's operations. Other foreign market risks include foreign exchange controls, difficulties in pricing securities, defaults on foreign government securities, difficulties in enforcing favorable legal judgments in foreign courts, and political and social instability. Legal remedies available to investors in certain foreign countries may be less extensive than those available to investors in the U.S. or other foreign countries. Foreign corporate governance may not be as robust as in the U.S. As a result, protections for minority investors may not be strong, which could affect security prices.

Currency Risk and Exchange Risk. Securities in which the Fund invests, or to which it obtains exposure, may be denominated or quoted in currencies other than the U.S. dollar. Changes in foreign currency exchange rates will affect the value of these securities. Generally, when the U.S. dollar rises in value against a foreign currency, an investment in a security denominated in that currency loses value because the currency is worth fewer U.S. dollars. Similarly when the U.S. dollar decreases in value against a foreign currency, an investment in, or exposure to, a security denominated in that currency gains value because the currency is worth more U.S. dollars. This risk is generally known as "currency risk," which is the possibility that a stronger U.S. dollar will reduce returns for U.S. investors investing overseas. Foreign currencies also involve the risk that they will be devalued or replaced, adversely affecting the Fund's investments.

Governmental Supervision and Regulation/Accounting Standards. Many foreign governments supervise and regulate stock exchanges, brokers and the sale of securities to a lesser extent than the U.S. government. Some countries may not have laws to protect investors the way that the U.S. securities laws do. Accounting standards in other countries are not necessarily the same as in the U.S. If the accounting standards in another country do not require as much disclosure or detail as U.S. accounting standards, it may be harder to completely and accurately determine a company's financial condition.

Certain Risks of Holding Fund Assets Outside the U.S. Foreign securities in which the Fund invests, or to which it obtains exposure, are generally held outside the U.S. in foreign banks and securities depositories. The Fund's custodian is the Fund's "foreign custody manager" as provided in Rule 17f-5 under the Investment Company Act. The "foreign custody manager" is responsible for determining that the Fund's directly-held foreign assets will be subject to reasonable care, based on standards applicable to custodians in relevant foreign markets. However, certain foreign banks and securities depositories may be recently organized or new to the foreign custody business. They may also have operations subject to limited or no regulatory oversight. Also, the laws of certain countries may put limits on the Fund's ability to recover its assets if a foreign bank or depository or issuer of a security or an agent of any of the foregoing goes bankrupt. In addition, it likely will be more expensive for the Fund to buy, sell and hold securities, or increase or decrease exposures thereto, in certain foreign markets than it is in the U.S. market due to higher brokerage, transaction, custody and/or other costs. The increased expense of investing in foreign markets reduces the amount the Fund can earn on its investments.

Settlement and clearance procedures in certain foreign markets differ significantly from those in the U.S. Foreign settlement and clearance procedures and trade regulations also may involve certain risks (such as delays in payment for or delivery of securities) not typically involved with the settlement of U.S. investments. Settlements in certain foreign countries at times have not kept pace with the number of securities transactions. The problems may make it difficult for the Fund to carry out transactions. If the Fund cannot settle or is delayed in settling a purchase of securities, the Fund may miss attractive investment opportunities and certain of its assets may be uninvested with no return earned thereon for some period. If the Fund cannot settle or is delayed in settling a sale of securities,

directly or indirectly, it may lose money if the value of the security then declines or, if it has contracted to sell the security to another party, the Fund could be liable to that party for any losses incurred.

Dividends and interest on, and proceeds from the sale of, foreign securities the Fund holds, or has exposure to, may be subject to foreign withholding or other taxes, and special federal tax considerations may apply.

Emerging Markets

Securities of issuers associated with emerging market countries, including, but not limited to, issuers that are organized under the laws of, maintain a principal place of business in, derive significant revenues from, or issue securities backed by the government (or, its agencies or instrumentalities) of emerging market countries may be subject to higher and additional risks than securities of issuers in developed foreign markets. These risks include, but are not limited to (i) social, political and economic instability; (ii) government intervention, including policies or regulations that may restrict the Fund's investment opportunities, including restrictions on investment in issuers or industries deemed sensitive to an emerging market country's national interests; (iii) less transparent and established taxation policies; (iv) less developed legal systems which may limit the rights and remedies available to the Fund against an issuer and with respect to the enforcement of private property rights and/or redress for injuries to private property; (v) the lack of a capital market structure or market-oriented economy which could limit reliable access to capital; (vi) higher degree of corruption and fraud and potential for market manipulation; (vii) counterparties and financial institutions with less financial sophistication, creditworthiness and/or resources as those in developed foreign markets; (viii) the possibility that the process of easing restrictions on foreign investment occurring in some emerging market countries may be slowed or reversed by unanticipated economic, political or social events in such countries, or the countries that exercise a significant influence over those countries; and (ix) differences in regulatory, accounting, auditing, and financial reporting and recordkeeping standards that could impede the Fund's ability to evaluate issuers.

In addition, many emerging market countries have experienced substantial, and during some periods, extremely high rates of inflation, for many years. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of these countries. Moreover, the economies of some emerging market countries may differ unfavorably from the U.S. economy in such respects as growth of gross domestic product, currency depreciation, debt burden, capital reinvestment, resource self-sufficiency and balance of payments position.

The Fund may have limited access to, or there may be a limited number of, potential counterparties that trade in the securities of emerging market issuers. Potential counterparties may not possess, adopt or implement creditworthiness standards, financial reporting standards or legal and contractual protections similar to those in developed foreign markets. Currency and other hedging techniques may not be available or may be limited. The local taxation of income and capital gains accruing to nonresidents varies among emerging market countries and may be comparatively high. Emerging market countries typically have less well-defined tax laws and procedures and such laws may permit retroactive taxation so that the Fund could in the future become subject to local tax liabilities that had not been anticipated in conducting its investment activities or valuing its assets. Custodial services and other investment-related costs in emerging market countries are often more expensive, compared to developed foreign markets and the U.S., which can reduce the Fund's income from investments in securities of emerging market country issuers.

Some emerging market currencies may not be internationally traded or may be subject to strict controls on foreign investment by local governments, resulting in undervalued or overvalued currencies and associated difficulties with the valuation of assets, including the Fund's securities, denominated in that currency. Some emerging market governments restrict currency conversions and/or set limits on repatriation of invested capital. Future restrictive exchange controls could prevent or restrict a company's ability to make dividend or interest payments in the original currency of the obligation (usually U.S. dollars). In addition, even though the currencies of some emerging market countries may be convertible into U.S. dollars, the conversion rates may be different than the actual market values and may be adverse to the Fund's shareholders.

Depository Receipts

The Fund may invest in foreign securities by purchasing depository receipts, including American Depository Receipts ("ADRs"), European Depository Receipts ("EDRs"), and Global Depository Receipts ("GDRs"). These securities may not necessarily be denominated in the same currency as the securities which they represent. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets, GDRs, in bearer form, are issued and designed for use outside the United States and EDRs (also referred to as Continental Depository Receipts ("CDRs")), in bearer form, may be denominated in other currencies and are designed for use in European securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities. EDRs are European receipts evidencing a similar arrangement. GDRs are receipts typically issued by non-United States banks and trust companies that evidence ownership of either foreign or domestic securities. For purposes of the Fund's investment policies, ADRs, GDRs and EDRs are deemed to have the same classification as the

underlying securities they represent. Thus, an ADR, GDR or EDR representing ownership of common stock will be treated as common stock.

Repurchase Agreements

The Fund may enter into repurchase agreements with banks and broker-dealers. A repurchase agreement is an agreement under which securities are acquired by the Fund from a securities dealer or bank subject to resale at an agreed upon price on a later date. The Fund bears a risk of loss in the event that the other party to a repurchase agreement defaults on its obligations and the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities. Such a default may subject the Fund to expenses, delays, and risks of loss including: (i) possible declines in the value of the underlying security while the Fund seeks to enforce its rights, (ii) possible reduced levels of income and lack of access to income during this period, and (iii) the inability to enforce its rights and the expenses involved in attempted enforcement.

Cash Items

The Fund may temporarily invest a portion of its assets in cash or cash items pending other investments or to maintain liquid assets required in connection with some of the Fund's investments. These cash items and other high quality debt securities may include money market instruments, such as securities issued by the U.S. government and its agencies, bankers' acceptances, commercial paper, bank certificates of deposit and investment companies that invest primarily in such instruments.

U.S. Government Securities

U.S. government securities include securities issued or guaranteed by the U.S. government or its authorities, agencies or instrumentalities. Different kinds of U.S. government securities have different kinds of government support. For example, some U.S. government securities (*e.g.*, U.S. Treasury bonds) are supported by the full faith and credit of the U.S. Other U.S. government securities are issued or guaranteed by federal agencies or government-chartered or -sponsored enterprises but are neither guaranteed nor insured by the U.S. government.

It is possible that the availability and the marketability (that is, liquidity) of the securities discussed in this section could be adversely affected by actions of the U.S. government to tighten the availability of credit.

As with other fixed income securities, U.S. government securities expose their holders to market risk because their values typically change as interest rates fluctuate. For example, the value of U.S. government securities may fall during times of rising interest rates. Yields on U.S. government securities tend to be lower than those of corporate securities of comparable maturities.

In addition to investing directly in U.S. government securities, the Fund may purchase certificates of accrual or similar instruments evidencing undivided ownership interests in interest payments and/or principal payments of U.S. government securities. Certificates of accrual and similar instruments may be more volatile than other government securities.

Illiquid Securities

The Fund may invest in illiquid securities (*i.e.*, securities that are not readily marketable). Illiquid securities include, but are not limited to, restricted securities (securities the disposition of which is restricted under the federal securities laws), securities that may only be resold pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), but that are deemed to be illiquid; and repurchase agreements with maturities in excess of seven days. However, the Fund will not acquire illiquid securities if immediately after the acquisition, such securities would comprise more than 15% of the value of the Fund's net assets. Determinations of liquidity are made pursuant to guidelines contained in the liquidity risk management program of the Trust applicable to the Fund. The Adviser determines and monitors the liquidity of the portfolio securities and reports periodically on its decisions to the Board. In making such liquidity determinations it primarily takes into account the average daily volume of trades. In addition, it may take into account a number of other factors in reaching liquidity decisions, including but not limited to: (1) the number of dealers willing to purchase or sell the security and the number of other potential buyers; (2) the willingness of dealers to undertake to make a market in the security; and (3) the nature of the marketplace trades, including the time needed to dispose of the security, the method of soliciting offers and the mechanics of the transfer. In connection with the implementation of the SEC's liquidity risk management rule and the liquidity risk management program of the Trust applicable to the Fund, the term "illiquid security" is defined as a security that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the security.

An institutional market has developed for certain restricted securities. Accordingly, contractual or legal restrictions on the resale of a security may not be indicative of the liquidity of the security. If such securities are eligible for purchase by institutional buyers in accordance with Rule 144A under the Securities Act or other exemptions, the Adviser may determine that the securities are liquid.

Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the Securities Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the decision to sell and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell.

Illiquid securities will be priced at fair value as determined in good faith under procedures adopted by the Board. If, through the appreciation of illiquid securities or the depreciation of liquid securities, the Fund should be in a position where more than 15% of the value of its net assets are invested in illiquid securities, including restricted securities which are not readily marketable, the Fund will take such steps as are deemed advisable, if any, to protect liquidity.

Investments in Other Investment Companies

The Fund may invest in the securities of other investment companies to the extent permitted by the Investment Company Act, SEC rules thereunder and exemptions thereto. The market price for ETF shares may be higher or lower than, respectively, the ETF's NAV. Investing in another investment company exposes the Fund to all the risks of that investment company and, in general, subjects it to a pro rata portion of the other investment company's fees and expenses. As a result, investments by the Fund in an ETF could cause the Fund's operating expenses to be higher and, in turn, performance to be lower than if the Fund were to invest directly in the securities underlying the ETF.

The Fund may invest in the securities of other investment companies to the extent that such an investment would be consistent with the requirements of Section 12(d)(1) of the Investment Company Act, or any rule, regulation or order of the SEC or interpretation thereof. Generally, the Fund may invest in the securities of another investment company (the "acquired company") provided that the Fund, immediately after such purchase or acquisition, does not own in the aggregate (i) more than 3% of the total outstanding voting stock of the acquired company, (ii) securities issued by the acquired company having an aggregate value in excess of 5% of the value of the total assets of the Fund, or (iii) securities issued by the acquired company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of the Fund. The Fund may invest in the securities of other investment companies beyond these limits if, for example, the Fund is part of a "master-feeder" structure or operates as a fund of funds in compliance with Section 12(d)(1)(E), (F) and (G) and the rules thereunder or Rule 12d1-4. Section 12(d)(1)(B) prohibits another investment company from selling its shares to the Fund if, after the sale (i) the Fund owns more than 3% of the other investment company's voting stock or (ii) the Fund and other investment companies, and companies controlled by them, own more than 10% of the voting stock of such other investment company.

For purposes of the Investment Company Act, Shares are issued by a registered investment company and purchases of such Shares by registered investment companies and companies relying on Section 3(c)(1) or 3(c)(7) of the Act are subject to the restrictions set forth in Section 12(d)(1) of the Act, except as permitted by an exemptive order of the SEC or rule promulgated under the Act.

Debt and Other Fixed Income Securities Generally

The Fund may invest directly in debt securities, or it may do so through investments in other investment companies (ETFs). Such investments may include the following: obligations of the U.S. government, its agencies and instrumentalities; corporate debt securities; master-demand notes; bank certificates of deposit; time deposits; bankers' acceptances; commercial paper and other notes; and inflation-indexed securities. The Fund may invest in debt securities that are investment grade. Investment grade securities include securities issued or guaranteed by the U.S. government, its agencies and instrumentalities, as well as securities rated in one of the four highest rating categories by at least two Rating Organizations rating that security, such as Standard & Poor's Ratings Services ("Standard & Poor's") or Moody's Investors Service, Inc. ("Moody's"), or rated in one of the four highest rating categories by one Rating Organization if it is the only Rating Organization rating that security or unrated, if deemed to be of comparable quality by the Adviser and traded publicly on the world market. Securities rated Baa and BBB are the lowest that are considered "investment grade" obligations. Moody's describes securities rated Baa as "subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics." Standard & Poor's describes securities rated BBB as "regarded as having adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation." For securities rated BBB, Fitch states that "...expectations of default risk are currently low...capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity." The Fund, at the discretion of the Adviser, may retain a debt security that has been downgraded below the initial investment criteria.

Debt and other fixed income securities include fixed and floating rate securities of any maturity. Fixed rate securities pay a specified rate of interest or dividends. Floating rate securities pay a rate that is adjusted periodically by reference to a specified index or market rate. Fixed and floating rate securities include securities issued by federal, state and local governments and related agencies, and by a

wide range of private issuers, and generally are referred to in this SAI as “fixed income securities.” Indexed bonds are a type of fixed income security whose principal value and/or interest rate is adjusted periodically according to a specified instrument, index or other statistic (e.g., another security, inflation index or currency).

Holders of fixed income securities are exposed to both market and credit risk. Market risk (or “interest rate risk”) relates to changes in a security’s value as a result of changes in interest rates. In general, the values of fixed income securities increase when interest rates fall and decrease when interest rates rise. Credit risk relates to the ability of an issuer to make payments of principal and interest. Obligations of issuers are subject to bankruptcy, insolvency and other laws that affect the rights and remedies of creditors.

Because interest rates vary, to the extent that the Fund invests in fixed income securities, the future income of the Fund cannot be predicted with certainty. To the extent that the Fund invests in indexed securities, the future income of the Fund also will be affected by changes in those securities’ indices over time (e.g., changes in inflation rates or currency rates).

REIT Investment Risk

Investments in REITs involve unique risks. REITs may have limited financial resources, may trade less frequently and in limited volume, and may be more volatile than other securities. In addition, to the extent the Fund holds interests in REITs, it is expected that investors in the Fund will bear two layers of asset-based management fees and expenses (directly at the Fund level and indirectly at the REIT level). The risks of investing in REITs include risks associated with the direct ownership of real estate and the real estate industry in general. These include risks related to general, regional and local economic conditions; fluctuations in interest rates and property tax rates; shifts in zoning laws, environmental regulations and other governmental action like the exercise of eminent domain; cash flow dependency; increased operating expenses; lack of availability of mortgage funds; losses due to natural disasters; overbuilding; losses due to casualty or condemnation; changes in property values and rental rates; and other factors. In addition to these risks, residential/diversified REITs and commercial equity REITs may be affected by changes in the value of the underlying property owned by the trusts, while mortgage REITs may be affected by the quality of any credit extended. Further, REITs are dependent upon management skills and generally may not be diversified. REITs are also subject to heavy cash flow dependency, defaults by borrowers and self-liquidation. In addition, REITs could possibly fail to qualify for the beneficial tax treatment available to REITs under the Internal Revenue Code of 1986 (the “Code”), or to maintain their exemptions from registration under the 1940 Act. The Fund expects that dividends received from a REIT and distributed to Fund shareholders generally will be taxable to the shareholder as ordinary income. The above factors may also adversely affect a borrower’s or a lessee’s ability to meet its obligations to the REIT. In the event of a default by a borrower or lessee, the REIT may experience delays in enforcing its rights as a mortgagee or lessor and may incur substantial costs associated with protecting investments.

Portfolio Turnover

The following table shows information on the Fund’s portfolio turnover rate for the most recent fiscal period.

Fund Name	Fiscal Period Ended January 31, 2026*
RockCreek Global Equality ETF	53%

* For the fiscal period February 26, 2025 (commencement of operations) to January 31, 2026.

Cybersecurity Risk

The Fund, like all companies, may be susceptible to operational and information security risks. Cybersecurity failures or breaches of the Fund or its service providers or the issuers of securities in which the Fund invests have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, the inability of Fund shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, and/or additional compliance costs. The Fund and its shareholders could be negatively impacted as a result.

MANAGEMENT OF THE FUND

Trustees and Officers

The business and affairs of the Trust are managed by its officers under the oversight of its Board. The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of the Adviser, the Sub-Adviser, and the Trust’s other service providers. Each Trustee serves until his or her successor is duly elected or appointed and qualified.

The Board is comprised of four Trustees. One Trustee and certain of the officers of the Trust are directors, officers or employees of the Adviser. The other Trustees (the “Independent Trustees”) are not “interested persons” (as defined in Section 2(a)(19) of the Investment Company Act) of the Trust. The fund complex includes all funds advised by the Adviser (“Fund Complex”).

The Trustees, their age, term of office and length of time served, their principal business occupations during the past five years, the number of portfolios in the Fund Complex overseen and other directorships, if any, held by each Trustee, are shown below. The officers, their age, term of office and length of time served and their principal business occupations during the past five years are shown below.

The address of each Trustee and each Officer is: c/o EA Series Trust, 3803 West Chester Pike, Suite 150, Newtown Square, PA 19073.

Name and Year of Birth	Position(s) Held with Trust	Term of Office and Length of Time Served	Principal Occupation During Past 5 Years	Number of Funds in Fund Complex Overseen by Trustee	Other Directorships Held by Trustee During Past 5 Years
Independent Trustees					
Daniel Dorn Born: 1975	Trustee	Indefinite term; Since 2014	Associate Professor of Finance, Drexel University, LeBow College of Business (2003–present).	106	None
Michael S. Pagano, Ph.D., CFA® Born: 1962	Trustee and Audit Committee Chairman	Indefinite term; Since 2014	The Robert J. and Mary Ellen Darretta Endowed Chair in Finance, Villanova University (1999–present); Founder, Michael S. Pagano, LLC (business consulting firm) (2008–present).	106	Citadel Federal Credit Union (pro bono service for non-profit)
Chukwuemeka (Emeka) O. Oguh Born: 1983	Trustee	Indefinite term; Since 2018	Co-founder and CEO, PeopleJoy (2016–present).	106	None
Interested Trustee and Officer*					
Wesley R. Gray, Ph.D. Born: 1980	Trustee, Chairman of the Board, and President	Indefinite term; Trustee and Chairman of the Board (since 2014); President (since 2025)	Founder and Executive Managing Member, EA Advisers (2013–present); Chief Executive Officer, EA Advisers (2024–present); Founder, Chief Executive Officer, and Chief Investment Officer, Alpha Architect, LLC (2014–present); Chief Compliance Officer, Alpha Architect (2023–present).	106	None

* Dr. Gray is an “interested person,” as defined by the Investment Company Act, because of his employment with and ownership interest in the Adviser.

Officers

Name and Year of Birth	Position(s) Held with Trust	Term of Office and Length of Time Served	Principal Occupation During Past 5 Years
Michael D. Barolsky Born: 1981	Vice President and Secretary	Since 2025; President (2024 – 2025)	Chief Legal Officer, EA Advisers (December 2024–present); Chief Executive Officer, EA Advisers (June 2024–December 2024); Senior Vice President, U.S. Bank Global Fund Services (2019–2024).
Joshua J. Hinderliter Born: 1983	Vice President	Since 2025	General Counsel, EA Advisers (2025-present); Vice President, U.S. Bancorp Fund Services, LLC (2024-2025); Assistant Vice President, U.S. Bancorp Fund Services, LLC (2022-2024); Managing Associate, Thompson Hine LLP (2016–2022).
Sean R. Hegarty, CPA Born: 1993	Treasurer	Since 2023; Assistant Treasurer (2022 – 2023)	Chief Operating Officer, EA Advisers (2022–present); Assistant Vice President, U.S. Bank Global Fund Services (2018–2022).
Jessica D. Leighty Born: 1981	Chief Compliance Officer	Since 2022	Chief Compliance Officer, EA Advisers (2021–present); Chief Compliance Officer, Alpha Architect (2021–2023); Chief Compliance Officer, Snow Capital (2015–2021).
Elizabeth A. Winske Born: 1983	Assistant Treasurer	Since 2024	Senior Fund Operations Officer, EA Advisers (2023–present); Vice President, U.S. Bank Global Fund Services (2020–2023).
Marie L. Lostocco, CPA Born: 1985	Assistant Treasurer	Since 2025	Senior Fund Operations Officer, EA Advisers (2025–present); Vice President, Blackrock Corporation Inc. (2021–2025); Vice President, Blackrock Financial Management (2018–2021); Senior Audit Manager, Tait, Weller and Baker LLP (2008–2018).
Kyle Martinelli Born: 1993	Assistant Treasurer	Since 2025	Fund Operations Officer, EA Advisers (2025–present); Assistant Vice President, U.S. Bank Global Fund Services (2015–2025).

Trustee Qualifications

Information on the Trust’s Trustees and Officers appears above including information on the business activities of Trustees during the past five years. In addition to personal qualities, such as integrity, the role of an effective Trustee inherently requires the ability to comprehend, discuss and critically analyze materials and issues presented in exercising judgments and reaching informed conclusions relevant to his duties and fiduciary obligations. The Board believes that the specific background of each Trustee evidences such ability and is appropriate to his serving on the Board. As indicated, Dr. Dorn holds an academic position in the area of finance. Dr. Pagano holds an academic position in the area of finance. Dr. Gray is the Founder and Executive Managing Member of the Adviser and Empirical Finance, LLC d/b/a Alpha Architect. Mr. Oguh is a financial technology entrepreneur, business executive and former mutual fund / ETF analyst.

Board Structure

Dr. Gray is considered to be an Interested Trustee and serves as Chairman of the Board. The Chairman’s responsibilities include: setting an agenda for each meeting of the Board; presiding at all meetings of the Board and, if present, meetings of the Independent Trustees; and, serving as a liaison between the other Trustees, Trust officers, management personnel and counsel. Dr. Gray also serves as President of the Trust.

The Board believes that having an interested Chairman, who is familiar with the Adviser and its operations, while also having three-fourths of the Board composed of Independent Trustees, strikes an appropriate balance that allows the Board to benefit from the insights and perspective of a representative of management while empowering the Independent Trustees with the ultimate decision-making authority. The Board has not appointed a lead Independent Trustee at this time. The Board does not believe that an independent Chairman or lead Independent Trustee would enhance the Board’s effectiveness, as the relatively small size of the Board allows for diverse viewpoints to be shared and for effective communications between and among Independent Trustees and management so that meetings proceed efficiently. Independent Trustees have effective control over the Board’s agenda because they form more than a majority of the Board and can request presentations and agenda topics at Board meetings.

The Board intends to hold four regularly scheduled meetings each year. The Board expects that such meetings will typically be held in person unless the Board determines that meeting by telephone or video conference is appropriate and permitted for the business being conducted at the applicable meeting. The Board may also hold special meetings, as needed, either in person, by telephone, or virtually (if permitted), to address matters arising between regular meetings. The Independent Trustees meet separately at each regularly scheduled in-person (or virtually, if permitted) meeting of the Board; during a portion of each such separate meeting management is

not present. The Independent Trustees may also hold special meetings, as needed, either in person, by telephone, or virtually (if permitted).

The Board conducts a self-assessment on an annual basis, as part of which it considers whether the structure of the Board and its Committees is appropriate under the circumstances. Based on such self-assessment, among other things, the Board will consider whether its current structure is appropriate. As part of this self-assessment, the Board will consider several factors, including the number of funds overseen by the Board, their investment objectives, and the responsibilities entrusted to the Adviser and other service providers with respect to the oversight of the day-to-day operations of the Trust and the Fund Complex.

The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of the Adviser, the Sub-Adviser, and the Trust's other service providers. As part of its oversight function, the Board monitors each of the Adviser's and Sub-Adviser's risk management, including, as applicable, its management of investment, compliance and operational risks, through the receipt of periodic reports and presentations. The Board has not established a standing risk committee. Rather, the Board relies on Trust officers, advisory personnel and service providers to manage applicable risks and report exceptions to the Board in order to enable it to exercise its oversight responsibility. To this end, the Board receives reports from such parties at least quarterly, including, but not limited to, investment and/or performance reports, distribution reports, Rule 12b-1 reports, valuation reports and internal controls reports. Similarly, the Board receives quarterly reports from the Trust's chief compliance officer ("CCO"), including, but not limited to, a report on the Trust's compliance program, and the Independent Trustees have an opportunity to meet separately each quarter with the CCO. The CCO typically provides the Board with updates regarding the Trust's compliance policies and procedures, including any enhancements to them. The Board expects all parties, including, but not limited to, the Adviser, the Sub-Adviser, service providers and the CCO, to inform the Board on an intra-quarter basis if a material issue arises that requires the Board's oversight.

The Board generally exercises its oversight as a whole but has delegated certain oversight functions to an Audit Committee. The function of the Audit Committee is discussed in detail below.

Committees

The Board currently has two standing committees: an Audit Committee and a Nominating Committee. Each Independent Trustee serves on each of these committees.

Dr. Pagano serves as the Audit Committee Chairman. The purposes of the Audit Committee are to: (1) oversee generally the Fund Complex's accounting and financial reporting policies and practices, their internal controls and, as appropriate, the internal controls of certain service providers; (2) oversee the quality, integrity and objectivity of the Fund Complex's financial statements and the independent audit thereof; (3) assist the full Board with its oversight of the Trust's compliance with legal and regulatory requirements that relate to the Fund Complex's accounting and financial reporting, internal controls and independent audits; (4) approve, prior to appointment, the engagement of the Trust's independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent auditors; and (5) act as a liaison between the Trust's independent auditors and the full Board. For the fiscal year ended January 31, 2026, the Audit Committee met nine times.

The purposes of the Nominating Committee are, among other things, to: (1) identify and recommend for nomination candidates to serve as Trustees and/or on Board committees who are not "interested persons" as defined in Section 2(a)(19) of the Investment Company Act ("Interested Persons") of the Trust and who meet any independence requirements of Exchange Rule 5.3(k)(1) or the applicable rule of any other exchange on which shares of the Trust are listed; (2) evaluate and make recommendations to the full Board regarding potential trustee candidates who are Interested Persons of the Trust; and (3) review periodically the workload and capabilities of the Trustees and, as the Committee deems appropriate, to make recommendations to the Board if such a review suggests that changes to the size or composition of the Board and/or its committees are warranted. The Committee will generally not consider potential candidates for nomination identified by shareholders. For the fiscal year ended January 31, 2026, the Nominating Committee did not meet as there were no Board vacancies.

Compensation of Trustees

The Trust's officers and any interested Trustees receive no compensation directly from the Trust.

The Independent Trustees determine the amount of compensation that they receive. In determining compensation for the Independent Trustees, the Independent Trustees take into account a variety of factors including, among other things, their collective significant work experience (*e.g.*, in business and finance, government or academia). The Independent Trustees also recognize that these individuals' advice and counsel are in demand by other organizations, that these individuals may reject other opportunities because of the time demands of their duties as Independent Trustees, and that they undertake significant legal responsibilities. The Independent Trustees also consider the compensation paid to independent board members of other registered investment company complexes of comparable size.

Independent Trustees are paid an annual retainer for their services, including attendance at meetings of the Board. All Trustees are reimbursed for their travel expenses and other reasonable out-of-pocket expenses incurred in connection with attending Board meetings. In addition, each Independent Trustee is entitled to reimbursement for reasonable out-of-pocket expenses for educational resources, including attending educational programs to stay informed about industry and regulatory developments. The Trust has no pension or retirement plan.

The table shows the compensation paid to Trustees for the fiscal year ended January 31, 2026 by the Fund Complex.*

	Compensation	Compensation Deferred	Total Compensation from the Fund Complex Paid to Trustee
Independent Trustees			
Emeka O. Oguh	\$192,375	\$0	\$192,375
Daniel Dorn	\$192,375	\$0	\$192,375
Michael S. Pagano**	\$197,375	\$0	\$197,375
Interested Trustee			
Wesley R. Gray***	\$0	\$0	\$0

* The Adviser, and not the Fund, is responsible for compensating the Trustees.

** Dr. Pagano receives additional compensation in his role as Audit Committee Chair.

*** Dr. Gray is an “interested person,” as defined by the Investment Company Act, because of his employment with and ownership interest in the Adviser.

Equity Ownership of Trustees

The following table sets forth the name and dollar range of equity securities of the Fund owned by Trustees as of December 31, 2025.

	Dollar Range of Equity Securities Owned	
	RockCreek Global Equality ETF	Aggregate Dollar Range of Shares (All Funds in the Complex)
Independent Trustees		
Emeka O. Oguh	\$0	\$50,001-\$100,000
Daniel Dorn	\$0	Over \$100,000
Michael S. Pagano	\$0	Over \$100,000
Interested Trustee		
Wesley R. Gray	\$0	Over \$100,000

As of the date of this SAI, none of the Independent Trustees or their immediate family members beneficially owned any securities in any investment adviser, investment sub-adviser, or principal underwriter of the Trust, or in any person (other than a registered investment company) directly or indirectly controlling, controlled by, or under common control with an investment adviser, investment sub-adviser, or principal underwriter of the Trust.

Codes of Ethics

The Board, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the Investment Company Act. In addition, each of the Adviser and Sub-Adviser has adopted a Code of Ethics pursuant to Rule 17j-1. These Codes of Ethics (each a “Code of Ethics” and together the “Codes of Ethics”) apply to the personal investing activities of trustees, directors, officers and certain employees (“access persons”). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. In addition, certain access persons are required to obtain approval before investing in private placements and are prohibited from investing in initial public offerings (“IPOs”). Copies of the Codes of Ethics are on file with the SEC, and are available to the public.

Under the Adviser’s Code of Ethics, the personnel of the Adviser are permitted to invest in the same securities as held by the Fund. However, the trading of such investments is subject to blackout periods. While the Codes of Ethics are reasonably designed to prevent conflicts arising from personal securities transactions by access persons there can be no assurance that these policies and procedures will be effective.

Under its Code of Ethics, the personnel of the Sub-Adviser are permitted to invest in the same securities as held by the Fund. However, the trading of such investments is subject to blackout periods. While the Code of Ethics is reasonably designed to prevent conflicts arising from personal securities transactions by access persons there can be no assurance that these policies and procedures will be effective, however.

Proxy Voting

The Board has delegated authority for making voting decisions with respect to the portfolio securities of the Fund(s) to the Adviser, subject to the Board of Trustees’ continuing oversight. Under this authority, the Adviser is required by the Board to vote proxies related to portfolio securities in the best interests of the Fund and its shareholders. The Adviser has determined, generally, to vote such proxies in accordance with the Glass Lewis ESG Thematic Voting Policy Guidelines (“Glass Lewis Guidelines”), which are included in Appendix A to this SAI. As such, proxies of the Fund(s) will be voted by the Adviser in accordance with the Glass Lewis Guidelines unless the Adviser determines otherwise. The Adviser will identify any conflicts that exist between its interests and the Fund(s) by reviewing its relationship with the issuer of each security to determine if the Adviser or any of its employees has any financial, business or personal relationship with the issuer.

If a material conflict of interest exists, the Adviser will determine whether it is appropriate to disclose the conflict to the applicable Fund, to give such Fund an opportunity to vote the proxies itself, or to address the voting issue through other objective means such as voting in a manner consistent with a predetermined voting policy or receiving an independent third-party voting recommendation.

The Trust will annually disclose its complete proxy voting record for the year ended June 30 on Form N-PX. The Trust’s most recent Form N-PX is available without charge, upon request, by calling (215) 330-4476. The Trust’s Form N-PX also is available on the SEC’s website at www.sec.gov and on the Fund’s website at <https://rockcreeketfs.com/>.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A “control person” is one who owns beneficially or through controlled companies more than 25% of the voting securities of a fund or acknowledges the existence of control. A “principal shareholder” is any person who owns of record or beneficially 5% or more of the outstanding shares of a fund.

As a controlling shareholder, the shareholder could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund’s fundamental policies or the terms of the management agreement with the Adviser. The following table sets forth the name, address, and percentage of ownership of a person who is known by the Trust to be either a control person or principal shareholder of the Fund as of May 4, 2026:

Name and Address	% Ownership	Parent Company (if applicable)	Jurisdiction (if applicable)	Type of Ownership
The Bank of New York Mellon 240 Greenwich Street New York, NY 10286	94.98%	N/A	N/A	Record

Management ownership

As of May 4, 2026, the Trustees and officers of the Trust, as a group, owned of record and beneficially less than 1% of the outstanding shares of the Fund.

INVESTMENT MANAGEMENT AND OTHER SERVICES

Investment Advisory Agreement

Under investment advisory agreements between the Trust, on behalf of the Fund, and the Adviser (the “Advisory Agreement”), the Fund pays the Adviser a fee at an annualized rate, which is calculated daily and paid monthly, based on its average daily net assets, set forth in the table below:

Fund	Advisory Fee
RockCreek Global Equality ETF	0.95%

The Adviser manages the investment and the reinvestment of the assets of the Fund, in accordance with the investment objective, policies and limitations of the Fund, subject to the general supervision and control of the Board. The Adviser is a registered investment adviser under the Investment Advisers Act of 1940, as amended, and is a limited liability company organized under the laws of Pennsylvania. The address of the Adviser is 3803 West Chester Pike, Suite 150, Newtown Square, PA 19073. The Adviser is wholly-owned by Alpha Architect, LLC. The Adviser was founded in October 2013 and provides investment advisory services to the Fund, other exchange-traded funds, and Alpha Architect, LLC, its parent company.

The following table summarizes the affiliated persons of the Fund who are also affiliated persons of the Adviser.

NAME	FUND AFFILIATION	ADVISER AFFILIATION
Wesley R. Gray, Ph.D.	Trustee, Chairman of the Board, and President	Executive Managing Member and Chief Executive Officer
Michael D. Barolsky	Vice President and Secretary	Chief Legal Officer
Joshua J. Hinderliter	Vice President	General Counsel
Sean R. Hegarty, CPA	Treasurer	Chief Operating Officer
Jessica D. Leighty	Chief Compliance Officer	Chief Compliance Officer
Elizabeth A. Winske	Assistant Treasurer	Senior Fund Operations Officer
Marie L. Lostocco	Assistant Treasurer	Senior Fund Operations Officer
Kyle Martinelli	Assistant Treasurer	Fund Operations Officer

Under the Advisory Agreement, the Adviser bears all of the costs of the Fund, except for the advisory fee, payments under the Fund’s Rule 12b-1 Distribution and Service Plan (the “Plan”), brokerage expenses, acquired fund fees and expenses, taxes (including tax-related services), interest (including borrowing costs), litigation expense (including class action-related services) and other non-routine or extraordinary expenses (including litigation to which the Trust or the Fund may be a party and indemnification of the Trustees and officers with respect thereto).

The Advisory Agreement with respect to a Fund will remain in effect for an initial term of two years from its effective date and thereafter continue in effect for as long as its continuance is specifically approved at least annually, by (1) the vote of the Trustees or by a vote of a majority of the shareholders of such Fund, and (2) by the vote of a majority of the Trustees who are not parties to the Advisory Agreement or Interested Persons of any person thereto, cast in person (or virtually, if permitted) at a meeting called for the purpose of voting on such approval. The Advisory Agreement for each Fund provides that it may be terminated at any time, without the payment of any penalty, by the Board or, with respect to a Fund, by a majority of the outstanding shares of a Fund, on 60 days’ written notice to the Adviser, and by the Adviser upon 60 days’ written notice, and that it shall be automatically terminated if it is assigned.

For the fiscal period indicated below, the Fund paid the following management fees to the Adviser:

Fiscal Period Ended	Advisory Fees
January 31, 2026*	\$689,045

* For the fiscal period February 26, 2025 (commencement of operations) to January 31, 2026.

Investment Sub-Adviser

The Trust, on behalf of the Fund, and the Adviser have retained Rock Creek Group, LLC, to serve as sub-adviser for the Fund. Brown Advisory Group Holdings, LLC, a holding company, has a controlling interest in Rock Creek Group, LLC, by virtue of its ownership of 75% of the firm’s voting interests. Subject to the supervision and oversight of the Adviser and the Board, and pursuant to a Sub-Advisory Agreement between the Adviser and the Sub-Adviser (the “Sub-Advisory Agreement”), the Sub-Adviser is responsible for selecting the investments for the Fund in accordance with the investment objective, policies and limitations of the Fund. The Sub-Adviser is not responsible for selecting broker-dealers or placing the Fund’s trades. Rather, the Sub-Adviser constructs the overall portfolio and provides trading instructions to the Adviser and, in turn, the Adviser is responsible for selecting broker-dealers and placing the Fund’s trades.

For the services it provides to the Fund, the Sub-Adviser is entitled to receive a management fee, which is calculated daily and payable monthly, at an annual rate based on the Fund’s average daily net assets multiplied by the sub-advisory fee of 0.48%. The payment of a management fee by the Adviser to the Sub-Adviser is subject to the terms of the Fund sponsorship agreement described below.

The Sub-Advisory Agreement was approved by the Trustees (including all the Independent Trustees) and holders of a majority of the outstanding Shares, in compliance with the 1940 Act. The Sub-Advisory Agreement will continue in force for an initial period of two years. Thereafter, the Sub-Advisory Agreement is renewable from year to year with respect to the Fund, so long as its continuance is approved at least annually (1) by the vote, cast in person (or virtually if then-permitted) at a meeting called for that purpose, of a majority of those Trustees who are not “interested persons” of the Trust; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding Shares. The Sub-Advisory Agreement will terminate automatically in the event of its assignment, and is terminable at any time without penalty by vote of a majority of the Board or, with respect to the Fund, by a majority of the outstanding Shares of the Fund, or by the Adviser, upon 60 days’ written notice to the Sub-Adviser, or by the Sub-Adviser on 60 days’ written notice to the Adviser and the Trust. The Sub-Advisory Agreement provides that the Sub-Adviser shall not be protected against any liability to the Trust or its shareholders by reason of willful misfeasance, fraud, bad faith or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

The following table summarizes the affiliated persons of the Fund that are also affiliated persons of the Sub-Adviser.

NAME	AFFILIATION WITH FUND	AFFILIATION WITH SUB-ADVISER
Ronald van der Wouden	Portfolio Manager	Managing Director
Theresa Nardone	Portfolio Manager	Vice President

The table below shows the sub-advisory fees in dollars earned by the Sub-Adviser for the fiscal year/period ended January 31:

	Gross Sub-Advisory Fees	Fees Waived ⁽¹⁾	Net Sub-Advisory Fees
January 31, 2026 ⁽²⁾	\$348,149	\$88	\$348,061

⁽¹⁾ Fees waived pursuant to the sponsorship arrangements between the Sub-Adviser and the Adviser.

⁽²⁾ The Fund commenced operations on February 26, 2025.

Sponsor

The Adviser has entered into a fund sponsorship agreement with the Sub-Adviser, under which the Sub-Adviser assumes the Adviser’s obligation to pay some of the Fund’s expenses, including its own sub-advisory fee. Although the Sub-Adviser has agreed to be responsible for paying some of the Fund’s expenses, the Adviser retains the ultimate obligation to the Fund to pay them. The Sub-Adviser will also provide marketing support for the Fund, including preparing marketing materials related to the Fund. For these services and payments, the Sub-Adviser is entitled to share in the potential profits generated by the management and operation of the Fund.

Custodian

U.S. Bank National Association (the “Custodian”), located at 1555 North Rivercenter Drive, Suite 302, Milwaukee, Wisconsin 53212, serves as the Custodian of the Fund’s assets. The Custodian has agreed to: (1) make receipts and disbursements of money on behalf of the Fund, (2) collect and receive all income and other payments and distributions on account of the Fund’s portfolio investments and (3) make periodic reports to the Fund concerning the Fund’s operations. The Custodian does not exercise any supervisory function over the purchase and sale of securities. As compensation for these services, the Custodian receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by the Adviser from its fees.

Administrator, Fund Accountant and Transfer Agent

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services, (the “Administrator” or “Transfer Agent”), located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as Administrator and Fund Accountant to the Fund. The Administrator provides the Fund with all required general administrative services, including, without limitation, clerical and general back office services; bookkeeping, internal accounting and secretarial services; the calculation of NAV; and the preparation and filing of all reports, updates to registration statements, and all other materials required to be filed or furnished by the Fund under federal and state securities laws. As compensation for these services, the Administrator receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by the Adviser from its fees.

U.S. Bancorp Fund Services, LLC also serves as the Transfer Agent of the Fund’s assets. The Transfer Agent has agreed to: (1) issue and redeem shares of the Fund in Creation Units, (2) make dividend and other distributions to shareholders of the Fund, (3) maintain shareholder accounts and (4) make periodic reports to the Fund. As compensation for these services, the Transfer Agent receives certain out-of-pocket costs and transaction fees which are accrued daily and paid monthly by the Adviser from its fees.

For the fiscal period indicated below, the Adviser paid the following fees to the Administrator:

Fiscal Period Ended	Administrator Fees
January 31, 2026*	\$29,552

* For the fiscal period February 26, 2025 (commencement of operations) to January 31, 2026.

Securities Lending Agent

U.S. Bank National Association is the Fund’s securities lending agent. The Fund did not participate in securities lending during the fiscal period ended January 31, 2026.

PORTFOLIO MANAGERS

The following table shows the number of other accounts managed by the portfolio managers and the reporting information is provided as of January 31, 2026:

Type of Accounts	Total Number of Accounts	Total Assets of Accounts (millions)	Total Number of Accounts with Performance Based Fees	Total Assets of Accounts with Performance Based Fees (millions)
<i>Ronald van der Wouden</i>				
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	2	\$252	0	\$0
Other Accounts	0	\$0	0	\$0
<i>Theresa Nardone</i>				
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	0	\$0	0	\$0

The following table provides the dollar range of equity securities beneficially owned by the portfolio managers in the Fund as of January 31, 2026:

	Dollar Range of Equity Securities Owned
	RockCreek Global Equality ETF
Ronald van der Wouden	\$10,001-\$50,000
Theresa Nardone	\$0

Potential Conflicts of Interest

A portfolio manager’s management of “other accounts” may give rise to potential conflicts of interest in connection with his/her management of the Fund’s investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a portfolio manager could favor one account over another. Another potential conflict could include a portfolio manager’s knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Fund.

Sub-Adviser – Portfolio Managers

The Sub-Adviser has established policies and procedures reasonably designed to ensure that the purchase and sale of securities among all accounts the Sub-Adviser manages are fairly and equitably allocated. There can be no assurance that these policies and procedures will be effective.

Compensation

Sub-Adviser – Portfolio Managers

Mr. van der Wouden and Ms. Nardone receive a salary and discretionary bonus based on the success of the Sub-Adviser.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Brokerage Transactions

Depending on prevailing market conditions, portfolio changes will generally be implemented through in-kind transactions (including a Cash Component or Cash Redemption Amount as applicable) for Creation Units or, in certain limited circumstances, through cash-only transactions for Creation Units. In connection with an in-kind component, the Adviser may nonetheless execute brokerage transactions for the Fund and the Fund may incur brokerage commissions, particularly during the early stages of the Fund's development or in the case of transactions involving realized losses. In connection with the cash component (or with an all-cash transaction), the Adviser will execute brokerage transactions for the Fund in connection with portfolio changes. Generally, equity securities are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark-up or reflect a dealer's mark-down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, the Adviser may place a combined order, often referred to as "bunching," for two or more accounts it manages, including the Fund, engaged in the purchase or sale of the same security or other instrument if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account or Fund. Although it is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or the Fund may obtain, it is the opinion of the Adviser and the Board that the advantages of combined orders outweigh the possible disadvantages of separate transactions. In addition, in some instances the Fund effecting the larger portion of a combined order may not benefit to the same extent as participants effecting smaller portions of the combined order. Nonetheless, the Adviser believes that the ability of the Fund to participate in higher volume transactions will generally be beneficial to the Fund.

For the fiscal period indicated below, the Fund paid the following amounts in brokerage commissions:

Fiscal Period Ended	Brokerage Commission
January 31, 2026*	\$35,255

* For the fiscal period February 26, 2025 (commencement of operations) to January 31, 2026.

Brokerage Selection

The Trust does not expect to use one particular broker-dealer to effect the Trust's portfolio transactions. When one or more broker-dealers is believed capable of providing the best combination of price and execution, the Adviser may not select a broker-dealer based on the lowest commission rate available for a particular transaction. The Adviser does not currently use soft dollars.

Brokerage with Fund Affiliates

Although not expected, the Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund, the Adviser, the Sub-Adviser, or the Distributor for a commission in conformity with the Investment Company Act, the 1934 Act and rules promulgated by the SEC. Under the Investment Company Act and the 1934 Act, affiliated broker-dealers are permitted to receive and retain compensation for effecting portfolio transactions for the Fund on an exchange if a written contract is in effect between the affiliate and the Fund expressly permitting the affiliate to receive and retain such compensation. These rules further require that commissions paid to the affiliate by the Fund for exchange transactions not exceed "usual and customary" brokerage commissions. The rules define "usual and customary" commissions to include amounts that are "reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time." The Board, including those who are not "interested persons" of the Fund, has adopted procedures for evaluating the reasonableness of commissions paid to affiliates and reviews these procedures periodically. For the fiscal period ended January 31, 2026, the Fund did not execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund, the Adviser, the Sub-Adviser, or the Distributor.

Securities of "Regular Broker-Dealers"

The Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the Investment Company Act) that the Fund may hold at the close of its most recent fiscal year. “Regular brokers and dealers” of the Trust are the ten brokers or dealers that, during the most recent fiscal year: (i) received the greatest dollar amounts of brokerage commissions from the Trust’s portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Trust; or (iii) sold the largest dollar amounts of the Trust’s shares. For the fiscal period ended January 31, 2026, the Fund did not hold any securities of “regular broker dealers” to report.

THE DISTRIBUTOR

PINE Distributors LLC (the “Distributor”), located at 501 S. Cherry Street, Suite 610, Denver, Colorado 80246, serves as the Distributor for the Fund.

Shares will be continuously offered for sale by the Trust through the Distributor only in Creation Units, as described below under “Transactions in Creation Units.” Shares in less than Creation Units are not distributed by the Distributor. The Distributor also acts as agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of FINRA. The Distributor has no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

The Board has adopted the Plan pursuant to Rule 12b-1 under the Investment Company Act. In accordance with its Plan, the Fund is authorized to pay an amount of 0.25% of its average daily net assets each year for certain distribution-related activities. The Plan was adopted in order to permit the implementation of the Fund’s method of distribution. No fees are currently paid by any Fund under the Plan. In the event such fees were to be charged, over time they would increase the cost of an investment in the Fund because they would be paid on an ongoing basis. If fees were charged under each Plan, the Trustees would receive and review at the end of each quarter a written report provided by the Distributor of the amounts expended under the Plan and the purpose for which such expenditures were made.

The Plan will remain in effect for a period of one year and is renewable from year to year with respect to the Fund, so long as its continuance is approved at least annually (1) by the vote of a majority of the Trustees, and (2) by a vote of the majority of those Independent Trustees who have no direct or indirect financial interest in the Plan (the “Rule 12b-1 Trustees”), cast in person (or virtually, if permitted) at a meeting called for the purpose of voting on such approval. The Plan may not be amended to increase materially the amount of fees paid by the Fund unless such amendment is approved by an Investment Company Act majority vote of the outstanding shares and by the Fund Trustees in the manner described above. The Plan is terminable with respect to the Fund at any time by a vote of a majority of the Rule 12b-1 Trustees or by an Investment Company Act majority vote of the outstanding shares.

ACCOUNTING AND LEGAL SERVICE PROVIDERS

Independent Registered Public Accounting Firm

Tait, Weller & Baker LLP, 50 South 16th Street, Suite 2900, Philadelphia, Pennsylvania 19102, serves as the Fund’s independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Fund.

Legal Counsel

Practus, LLP, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, Kansas 66211, serves as legal counsel to the Trust.

ADDITIONAL INFORMATION CONCERNING SHARES

Organization and Description of Shares of Beneficial Interest

The Trust is a Delaware statutory trust and registered open-end investment company. The Trust was organized on October 11, 2013 and has authorized capital of an unlimited number of Shares of beneficial interest of no par value that may be issued in more than one class or series. Currently, the Trust consists of multiple series, including each Fund discussed in this SAI (“each Fund”). The Board may designate additional series and classify Shares of a particular series into one or more classes of that series.

Under Delaware law, the Trust is not required to hold an annual meeting of shareholders if the Investment Company Act does not require such a meeting, which it does not. Generally, there will not be annual meetings of Trust shareholders, but if requested by shareholders of at least 10% of the outstanding Shares of the Trust, the Trust will call a meeting of shareholders for the purpose of electing Trustees, provided that the Shareholders requesting such meeting shall have paid the Trust the reasonably estimated cost of preparing and mailing the notice thereof.

All Shares are freely transferable. Shares will not have preemptive rights or cumulative voting rights, and none of the Shares will have any preference to conversion, exchange, dividends, retirements, liquidation, redemption or any other feature. Shares have equal voting rights. The Trust's Agreement and Declaration of Trust confers upon the Board the power to alter the number of Shares constituting a Creation Unit or to specify that Shares may be individually redeemable. The Trust reserves the right to adjust the stock prices of Shares to maintain convenient trading ranges for investors. Any such adjustments would be accomplished through stock splits or reverse stock splits that would have no effect on the NAV of each Fund.

The Trust's Agreement and Declaration of Trust disclaims liability of the shareholders or the officers of the Trust for acts or obligations of the Trust that are binding only on the assets and property of the Trust. The Agreement and Declaration of Trust provides for indemnification out of each Fund's property for all loss and expense of such Fund's shareholders being held personally liable solely by reason of his or her being or having been a shareholder and not because of his or her acts or omissions or for some other reason. The risk of a Trust shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the applicable Fund itself would not be able to meet the Trust's obligations and this risk should be considered remote.

If the applicable Fund does not grow to a size to permit it to be economically viable, a Fund may cease operations. In such an event, shareholders may be required to liquidate or transfer their Shares at an inopportune time and shareholders may lose money on their investment.

Book Entry Only System

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Book Entry."

DTC acts as securities depository for Shares. Shares are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC.

DTC, a limited purpose trust company, was created to hold securities of its participants (the "DTC Participants") and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the NYSE, NYSE Amex Equities and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the "Indirect Participants").

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as "Beneficial Owners") is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase and sale of Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares held by each DTC Participant. The Trust shall inquire of each such DTC Participant, directly or through one or more intermediaries, as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Fund distributions shall be made to DTC or Cede & Co., as the registered holder of all Shares. DTC or Cede & Co., upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in Shares as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such

beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to Shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions, though there can be no guarantee that such services would be available at a comparable cost.

Transactions In Creation Units

Each Fund sells and redeems Shares in Creation Units on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt of an order in proper form on any Business Day. As of the date of this SAI, the Exchange observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Washington's Birthday, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. No Fund will issue fractional Creation Units, except in conjunction with a merger or reorganization or for the receipt of securities in-kind at the commencement of the Fund's operations.

The Board may declare a split or a consolidation in the number of Shares outstanding of a Fund or the Trust and make a corresponding change in the number of Shares in a Creation Unit.

To purchase or redeem any Creation Units from a Fund, you must be, or transact through, an Authorized Participant. In order to be an Authorized Participant, you must be a member or participant of a clearing agency registered with the SEC and have a written agreement (a "Participant Agreement") with the applicable Fund or one of its service providers that allows the Authorized Participant to place orders for the purchase and redemption of creation units.

Transactions by an Authorized Participant that is a participant in the Continuous Net Settlement System ("Clearing Process") of the NSCC using the NSCC system are referred to as transactions "through the Clearing Process." Transactions by an Authorized Participant that is a participant in DTC with access to the DTC system ("DTC Participant") using the DTC system are referred to as transactions "outside the Clearing Process."

Investors who are not Authorized Participants but want to transact in Creation Units may contact the Distributor for the names of Authorized Participants. An Authorized Participant may require investors to enter into a separate agreement to transact through it for Creation Units and may require orders for purchases of shares placed with it to be in a particular form. Investors should be aware that their broker may not be an Authorized Participant and, therefore, may need to place any order to purchase or redeem Creation Units through another broker or person that is an Authorized Participant, which may result in additional charges. There are expected to be a limited number of Authorized Participants at any one time.

Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement. Market disruptions and telephone or other communication failures may impede the transmission of orders.

Purchasing Creation Units

Shares may be purchased only in Creation Units at their NAV next determined after receipt of a purchase request in proper form by the applicable Fund through the Distributor and only on a Business Day.

Fund Deposit. The consideration for a Creation Unit of a Fund is the "Fund Deposit". The Fund Deposit will consist of the In-Kind Creation Basket and Cash Component (computed as described below), or an all cash payment ("Cash Value"), as determined by the Adviser to be in the best interest of the applicable Fund. The standard Fund Deposit with respect to each Fund can be found in the table at the end of this section (the "Order Information Table").

The Cash Component will typically include an amount reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Creation Basket ("Balancing Amount"). If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Creation Basket, the purchaser pays the Balancing Amount to the applicable Fund. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Creation Basket, the Fund pays the Balancing Amount to the purchaser. The Balancing Amount ensures that the consideration paid by an investor for a Creation Unit is exactly equal to the value of the Creation Unit.

The Transfer Agent, in a portfolio composition file sent via the NSCC, generally makes available on each Business Day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), a list of the names and the required number of shares of each security (or contracts of each option) in the In-Kind Creation Basket to be included in the current Fund Deposit for the applicable Fund (based on information about such Fund's portfolio at the end of the previous Business Day) (subject to amendment or

correction). If applicable, the Transfer Agent, through the NSCC, also makes available on each Business Day the estimated Cash Component or Cash Value per Creation Unit based on the previous Business Day.

The announced Fund Deposit is applicable, subject to any adjustments as described below, for purchases of Creation Units of a Fund until such time as the next-announced Fund Deposit is made available. From day to day, the composition of the In-Kind Creation Basket may change as, among other things, corporate actions and investment decisions by the Adviser are implemented for the applicable Fund's portfolio. All questions as to the composition of the In-Kind Creation Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by the applicable Fund, and such Fund's determination shall be final and binding. Each Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Deposit.

Payment of any stamp duty or the like shall be the sole responsibility of the Authorized Participant purchasing a Creation Unit. The Authorized Participant must ensure that all Deposit Securities properly denote change in beneficial ownership.

Cash in lieu. Each Fund may, in its sole discretion, permit or require the substitution of an amount of cash ("cash in lieu") to be added to the Cash Component to replace any security in the In-Kind Creation Basket. Each Fund may permit or require cash in lieu when, for example, the securities in the In-Kind Creation Basket may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, each Fund may permit or require cash in lieu when, for example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities law or policies from transacting in one or more securities in the In-Kind Creation Basket. Each Fund will comply with the federal securities laws in accepting securities in the In-Kind Creation Basket, including the securities in the In-Kind Creation Basket that are sold in transactions that would be exempt from registration under the 1933 Act.

In all cases, cash and securities should be transferred to the applicable Fund by the "Settlement Date," which, unless extended as noted below, is generally the Business Day immediately following the Transmittal Date (as defined below). The Settlement Date may be extended if deemed to be in the best interests of the applicable Fund and its shareholders by the Adviser. Persons placing custom orders or orders involving Cash Value should be aware of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may delay the delivery of cash and securities by the Settlement Date.

Placement of Creation Orders. All purchase orders must be placed by or through an Authorized Participant. To order a Creation Unit, an Authorized Participant must submit an irrevocable purchase order to the Distributor. In-kind (portions of) purchase orders will be processed through the Clearing Process when it is available. The Clearing Process is an enhanced clearing process that is available only for certain securities and only to DTC Participants that are also participants in the Clearing Process of the NSCC. In-kind (portions of) purchase orders not subject to the Clearing Process will go through a manual clearing process run by DTC. Fund Deposits that include government securities must be delivered through the Federal Reserve Bank wire transfer system ("Federal Reserve System"). Fund Deposits that include cash may be delivered through the Clearing Process or the Federal Reserve System. Certain orders for a Fund may be made outside the Clearing Process. In-kind deposits of securities for such orders must be delivered through the Federal Reserve System (for government securities) or through DTC (for corporate securities) and/or through such other arrangements allowed by the Trust or its agents.

Orders Using the Clearing Process. In connection with creation orders made through the Clearing Process, the Distributor transmits, on behalf of the Authorized Participant, such trade instructions as are necessary to effect the creation order. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Fund Deposit to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor on the Business Day that the next NAV of the applicable Fund is calculated (the "Transmittal Date") if (i) such order is received by the Distributor by the applicable cut-off time (see the Order Information Table below) and (ii) all other procedures set forth in the Participant Agreement are properly followed. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System, as described below.

Orders Outside the Clearing Process. Fund Deposits made outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. With respect to such orders, the Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of securities in the In-Kind Creation Basket (whether standard or custom) through DTC to the relevant Trust account by 11:00 a.m., Eastern time (the "DTC Cut-Off Time") on the Business Day immediately following the Transmittal Date (unless extended as described herein). The amount of cash equal to the Cash Component, along with any cash in lieu and Transaction Fee (see Transaction Fees below and the Order Information Table below), must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date (unless extended as described herein). The delivery of corporate securities through DTC must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date (unless extended as described herein). The delivery of government

securities through the Federal Reserve System must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date (unless extended as described herein).

An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor by the applicable cut-off time (see Purchase and Redemption Cut-Off Times below and the Order Information Table below) and (ii) all other procedures set forth in the Participant Agreement are properly followed. If the Custodian does not receive both the required In-Kind Creation Basket by the DTC Cut-Off Time (unless extended as described herein) and the Cash Component and applicable Transaction Fee by the appointed time, such order may be canceled. Upon written notice to the Distributor, a canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then-current In-Kind Creation Basket and Cash Component. Generally, the delivery of Creation Units so created will generally occur no later than the Business Day following the day on which the order is deemed received by the Distributor. The Settlement Date may be extended if deemed to be in the best interests of the applicable Fund and its shareholders by the Adviser. Authorized Participants that submit a canceled order will be liable to the applicable Fund for any losses resulting therefrom.

Orders involving foreign securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable purchase order, the Distributor will notify the Adviser and the Custodian of such order. The Custodian, who will have caused the appropriate local sub-custodian(s) of the applicable Fund to maintain an account into which an Authorized Participant may deliver the Fund Deposit (or cash in lieu), with adjustments determined by the applicable Fund, will then provide information of the order to such local sub-custodian(s). The Authorized Participant must also make available on or before the Settlement, by means satisfactory to the applicable Fund, immediately available or same day funds in U.S. dollars estimated by the applicable Fund to be sufficient to pay the Cash Component and Transaction Fee.

While, as stated above, Creation Units are generally delivered the Business Day following the day on which the order is deemed received by the Distributor, except the applicable Fund may settle Creation Unit transactions on a basis other than the one described above to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances.

Acceptance of Orders for Creation Units. The Trust reserves the right to reject a creation order transmitted to it by the Distributor with respect to a Fund if: (i) the order is not in proper form; (ii) the securities delivered do not conform to the In-Kind Creation Basket for the relevant date; (iii) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; or (iv) in the event that circumstances that are outside the control of the Trust, Custodian, Distributor, and Adviser make it practically impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems resulting in telephone, telecopy and computer failures; fires, floods, or extreme weather conditions; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Adviser, the Distributor, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process; and similar extraordinary events. The Distributor shall notify an Authorized Participant of its or the Trust's rejection of the order. Each Fund, the Custodian, any sub-custodian, and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits, and they shall not incur any liability for the failure to give any such notification.

Issuance of a Creation Unit. Once a Fund has accepted a creation order, upon next determination of the applicable Fund's NAV, such Fund will confirm the issuance of a Creation Unit, against receipt of payment, at such NAV. The Distributor will transmit a confirmation of acceptance to the Authorized Participant that placed the order.

Except as provided below, a Creation Unit will not be issued until the applicable Fund obtains good title to the In-Kind Creation Basket securities and the Cash Component, along with any cash in lieu and Transaction Fee.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

With respect to orders involving foreign securities, when the applicable local sub-custodian(s) has confirmed to the Custodian that the In-Kind Creation Basket (or cash in lieu) has been delivered to the applicable Fund's account at the applicable sub-custodian(s), the Distributor and the Adviser shall be notified of such delivery, and such Fund will issue and cause the delivery of the Creation Unit.

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable In-Kind Creation Basket, provided the purchaser tenders an initial deposit consisting of any available securities in the In-Kind Creation Basket and cash equal to the sum of the Cash Component and at least 105% of the market value, as adjusted from time to time by the Adviser, of the In-Kind Creation Basket securities not delivered ("Additional Cash Deposit"). Such initial deposit will have a value greater than the NAV of the Creation Unit on the date the order is placed.

To the extent securities in the In-Kind Creation Basket remain undelivered, pending delivery of such securities additional cash will be required to be deposited with the Trust as necessary to maintain an Additional Cash Deposit equal to at least 105% (as adjusted by the Adviser) of the daily marked-to-market value of the missing securities. To the extent that either (i) such securities are still not received by 1:00 p.m., Eastern time, on the second Business Day following the day on which the purchase order is deemed received by the Distributor or (ii) a marked-to-market payment is not made within one Business Day following notification to the purchaser and/or Authorized Participant that such a payment is required, the Trust may use the cash on deposit to purchase the missing securities, and the Authorized Participant effectuating such transaction will be liable to the applicable Fund for any costs incurred therein or losses resulting therefrom, including any Transaction Fee, any amount by which the actual purchase price of the missing securities exceeds the Additional Cash Deposit or the market value of such securities on the day the purchase order was deemed received by the Distributor, as well as brokerage and related transaction costs. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing securities have been received by the Trust.

Cash Purchase Method. When cash purchases of Creation Units are available or specified for a Fund, they will be effected in essentially the same manner as in-kind purchases. In the case of a cash purchase, the investor must pay the cash equivalent of the Fund Deposit. In addition, cash purchases may be subject to Transaction Fees as described below. A cash purchase may cause a Fund to incur certain costs that it would not have had the purchase been in-kind. These costs may include brokerage costs, execution, price movement and other costs and expenses related to the execution of trades by such Fund. To the extent that these costs are not offset by the Transaction Fees the applicable Fund's NAV will be negatively impacted.

Redeeming Creation Units

Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by each Fund through the Distributor and only on a Business Day.

Fund Redemptions. The redemption proceeds for a Creation Unit will consist of the In-Kind Redemption Basket and a Cash Redemption Amount (computed as described below), or the Cash Value, in all instances equal to the value of a Creation Unit.

There can be no assurance that there will be sufficient liquidity in Shares in the secondary market to permit assembly of a Creation Unit. In addition, investors may incur brokerage and other costs in connection with assembling a Creation Unit.

The Cash Redemption Amount will typically include a Balancing Amount, reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Redemption Basket. If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Redemption Basket, each Fund pays the Balancing Amount to the redeeming investor. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Redemption Basket, the redeeming investor pays the Balancing Amount to each Fund.

The composition of the In-Kind Creation Basket will normally be the same as the composition of the In-Kind Redemption Basket. Otherwise, the In-Kind Redemption Basket will be made available by the Adviser or Transfer Agent. Each Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Redemption.

In lieu of an In-Kind Redemption Basket and Cash Redemption Amount, Creation Units may be redeemed consisting solely for the Cash Value if permitted or required by each Fund in its sole discretion. Such redemptions for each Fund may be subject to a variable charge, as explained below. If applicable, information about the Cash Value will be made available by the Adviser or Transfer Agent.

From day to day, the composition of the In-Kind Redemption Basket may change as, among other things, corporate actions are implemented for each Fund's portfolio. All questions as to the composition of the In-Kind Redemption Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by each Fund, and each Fund's determination shall be final and binding.

The right of redemption may be suspended or the date of payment postponed: (i) for any period during which the NYSE is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares or determination of each Fund's NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the SEC, including as described below.

Cash in lieu. Each Fund may, in its sole discretion, permit or require the substitution of an amount of cash ("cash in lieu") to be added to the Cash Redemption Amount to replace any security in the In-Kind Redemption Basket. Each Fund may permit or require cash in lieu when, for example, the securities in the In-Kind Redemption Basket may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, each Fund may permit or require cash in lieu when, for example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities law or policies from transacting in one or more securities in the In-Kind Redemption Basket. Each Fund will comply with the federal

securities laws in satisfying redemptions with the applicable In-Kind Redemption Basket, including the securities in the In-Kind Redemption Basket that are sold in transactions that would be exempt from registration under the 1933 Act.

Placement of Redemption Orders. Redemptions must be placed to the Transfer Agent through the Distributor. In addition, redemption orders must be processed either through the DTC process or the Clearing Process. To redeem a Creation Unit, an Authorized Participant must submit an irrevocable redemption order to the Distributor.

An Authorized Participant submitting a redemption order is deemed to represent to each Fund that it or, if applicable, the investor on whose behalf it is acting, (i) owns outright or has full legal authority and legal beneficial right to tender for redemption the Creation Unit to be redeemed and can receive the entire proceeds of the redemption, and (ii) all of the Shares in the Creation Unit to be redeemed have not been borrowed, loaned, or pledged to another party nor are they the subject of a repurchase agreement, securities lending agreement, or such other arrangement which would preclude the delivery of such Shares to the applicable Fund. Each Fund reserves the absolute right, in its sole discretion, to verify these representations, but will typically require verification in connection with higher levels of redemption activity and/or short interest in the applicable Fund. If the Authorized Participant, upon receipt of a verification report, does not provide sufficient verification of the requested representations, the redemption order will not be considered to be in proper form and may be rejected by the applicable Fund.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Placement of Redemption Orders Using Clearing Process. Orders to redeem Creation Units through the Clearing Process are deemed received by the Trust on the Transmittal Date if (i) such order is received by the Transfer Agent not later than the Standard Cut-Off Time, and (ii) all other procedures set forth in the Participant Agreement are properly followed. Orders deemed received will be effectuated based on the NAV of each Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Trust after the Standard Cut-Off Time will be deemed received on the Transmittal Date and will be effected at the NAV determined on such Transmittal Date. In connection with such orders, the Distributor transmits on behalf of the Authorized Participant such trade instructions as are necessary to effect the redemption. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Creation Unit(s) to the applicable Fund, together with such additional information as may be required by the Distributor. Cash Redemption Amounts will be delivered using either the Clearing Process or the Federal Reserve System. The applicable In-Kind Redemption Basket and the Cash Redemption Amount will be transferred to the investor by the second NSCC business day following the date on which such request for redemption is deemed received.

Placement of Redemption Orders Outside Clearing Process. Orders to redeem Creation Units outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. Such orders are deemed received by the Trust on the Transmittal Date if: (i) such order is received by the Transfer Agent not later than the Standard Cut-Off Time; (ii) such order is accompanied or followed by the delivery of both (a) the Creation Unit(s), which delivery must be made through DTC to the Custodian no later than the DTC Cut-Off Time on the Business Day immediately following the Transmittal Date (unless extended as described herein) and (b) the Cash Redemption Amount by 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date (unless extended as described herein); and (iii) all other procedures set forth in the Participant Agreement are properly followed. After the Trust has deemed such an order received, the Trust will initiate procedures to transfer, and expect to deliver, the requisite In-Kind Redemption Basket and/or any Cash Redemption Amount owed to the redeeming party by the second Business Day following the Transmittal Date on which such redemption order is deemed received by the Trust.

Orders involving foreign securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable redemption order, the Distributor will notify the Adviser and the Custodian. The Custodian will then provide information of the redemption to each Fund's local sub-custodian(s). The redeeming Authorized Participant, or the investor on whose behalf it is acting, will have established appropriate arrangements with a broker-dealer, bank or other custody provider in each jurisdiction in which the securities are customarily traded and to which such securities (and any cash in lieu) can be delivered from the applicable Fund's accounts at the applicable local sub-custodian(s).

The calculation of the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received upon redemption will be made by the Custodian computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted to the Transfer Agent by a DTC Participant or an Authorized Participant with the ability to transact through the Federal Reserve System, as applicable, not later than Closing Time on the Transmittal Date, and the requisite number of Shares of the applicable Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be determined by the Custodian on such Transmittal Date. If, however, either: (i) the requisite number of Shares of the applicable Fund are not delivered by the DTC Cut-Off-Time, as described below, or (ii) the redemption order is not submitted in proper form, then the

redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be computed on the Transmittal Date provided that the Shares of the applicable Fund are delivered through DTC to the Custodian by 11:00 a.m., Eastern time, the following Business Day pursuant to a properly submitted redemption order.

If it is not possible to effect deliveries of the securities in the In-Kind Redemption Basket, the Trust may in its discretion exercise its option to redeem Shares in cash, and the redeeming beneficial owner will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the applicable Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Shares based on the NAV of Shares of the applicable Fund next determined after the redemption request is received in proper form (minus a Transaction Fee, including a variable charge, if applicable, as described below).

The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the In-Kind Redemption Basket, or cash in lieu of some securities added to the Cash Component, but in no event will the total value of the securities delivered and the cash transmitted differ from the NAV. Redemptions of Fund Shares for the In-Kind Redemption Basket will be subject to compliance with applicable federal and state securities laws and each Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific securities in the In-Kind Redemption Basket upon redemptions or could not do so without first registering the securities in the In-Kind Redemption Basket under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the In-Kind Redemption Basket applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming beneficial owner of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of shares or delivery instructions.

Delivery of Redemption Basket. Once the applicable Fund has accepted a redemption order, upon next determination of that Fund's NAV, that Fund will confirm the issuance of an In-Kind Redemption Basket, against receipt of the Creation Unit(s) at such NAV, any cash in lieu and Transaction Fee, if applicable. A Creation Unit tendered for redemption and the payment of the Cash Redemption Amount, any cash in lieu and Transaction Fee, if applicable, will be effected through DTC. The Authorized Participant, or the investor on whose behalf it is acting, will be recorded on the book-entry system of DTC.

Cash Redemption Method. When cash redemptions of Creation Units are available or specified for the applicable Fund, at that Fund's sole discretion, they will be effected in essentially the same manner as in-kind redemptions. In the case of a cash redemption, the investor will receive the cash equivalent of the In-Kind Redemption Basket minus any Transaction Fees, if applicable. Cash redemptions may cause the applicable Fund to incur certain costs that it would not have had had the redemption been in-kind. These costs may include brokerage costs, execution, price movement and other costs and expenses related to the execution of trades by the applicable Fund, including taxable gains or losses it might not have incurred if the redemption had been in-kind. To the extent that these costs are not offset by the Transaction Fees of the applicable Fund's NAV will be negatively impacted.

Purchase and Redemption Cut-Off Times

All orders and redemptions involving cash in lieu are considered to be "custom." All other orders and redemptions are considered "standard." Order cut-off times for standard and custom orders are as shown in the Order Information Table below. On days when the Exchange or bond markets close earlier than normal (such as the day before a holiday), the Order Cut-Off Time (whether standard or custom) is expected to be similarly earlier than normal.

If indicated in the Order Information Table below, orders to purchase Shares directly from the indicated Fund(s) on the next Business Day must be submitted as a "Future Dated Trade" for one or more Creation Units between 4:30 p.m. Eastern time and 5:30 p.m. Eastern time on the prior Business Day and in the manner set forth in the Participant Agreement and/or applicable order form. Such order window is referred to as a "T-1" order window. For such Future Dated Trades, the Transmittal Date will be the Business Day following the date that the order is submitted. For example, to place an order for such a Fund to receive the NAV of the Fund calculated on a Wednesday, the order would need to be submitted as a Future Dated Trade between 4:30 p.m. Eastern time and 5:30 p.m. Eastern time on the preceding Tuesday.

Transaction Fees

Authorized Participants may be required to pay a Transaction Fee as set forth in the Order Information Table below to compensate the Trust or its custodian for costs incurred in connection with creation and redemption transactions.

The Standard Transaction Fee, which is payable to the Trust's custodian, typically applies to in-kind purchases of the applicable Fund effected through the Clearing Process on any Business Day, regardless of the number of Creation Units purchased or redeemed that

day (assuming, in the case of multiple orders on the same day, that the orders are received at or near the same time). A Transaction Fee of up to four times the standard fee may apply to creation and redemption transactions that occur outside the Clearing Process. As shown in the Order Information Table below, certain Fund Deposits consisting of cash-in-lieu or Cash Value may be subject to a variable charge, which is payable to the applicable Fund, of up to 2.00% of the value of the order in addition to the Standard Transaction Fee. The Standard Transaction Fee may be waived on certain orders if the Trust’s custodian has determined to waive the Transaction Fees associated with the order or another party, such as the Adviser, has agreed to pay such fee. The Fund may determine to waive the variable charge on certain orders when such waiver is determined to be in the best interests of Fund shareholders, *e.g.*, for cash creation orders that facilitate the rebalance of the applicable Fund’s portfolio in a more tax efficient manner than could be achieved without such order.

The Fund may adjust the Transaction Fee from time to time. The Standard Transaction Fee is based, in part, on the number of holdings in the applicable Fund’s portfolio and may be adjusted periodically if the number of holdings change. Investors will also be responsible for the costs associated with transferring the securities in the In-Kind Creation (and Redemption) Baskets to (and from) the account of the Trust. Further, investors who, directly or indirectly, use the services of a broker or other intermediary to compose a Creation Unit in addition to an Authorized Participant to effect a transaction in Creation Units may be charged an additional fee by such intermediary for such services.

Order Information Table

Fund	Ticker	Standard Order Cut-Off Time	Custom Order Cut-Off Time	Standard Transaction Fee	Standard Fund Deposit
RockCreek Global Equality ETF	RCGE	4:30 p.m.- 5:30 p.m. ET (T-1)	4:30 p.m.- 5:30 p.m. ET (T-1)	\$1,700	In-Kind

DETERMINATION OF NET ASSET VALUE

The NAV of Shares is calculated each business day as of the close of regular trading on the New York Stock Exchange (“NYSE”), generally 4:00 p.m., Eastern time.

The Fund calculates its NAV per Share by:

- Taking the current market value of its total assets,
- Subtracting any liabilities, and
- Dividing that amount by the total number of Shares owned by shareholders.

If you buy or sell Shares on the secondary market, you will pay or receive the market price, which may be higher or lower than NAV. Your transaction will be priced at NAV only if you purchase or redeem your Shares in Creation Units.

Because securities listed on foreign exchanges may trade on weekends or other days when a Fund does not price its Shares, the NAV of the Fund, to the extent it may hold foreign securities, may change on days when shareholders will not be able to purchase or sell Shares.

Equity securities that are traded on a national securities exchange, except those listed on the NASDAQ Global Market® (“NASDAQ”) are valued at the last reported sale price on the exchange on which the security is principally traded. Securities traded on NASDAQ will be valued at the NASDAQ Official Closing Price (“NOCP”). If, on a particular day, an exchange-traded or NASDAQ security does not trade, then the most recent quoted bid for exchange traded or the mean between the most recent quoted bid and ask price for NASDAQ securities will be used. Equity securities that are not traded on a listed exchange are generally valued at the last sale price in the over-the-counter market. If a non-exchange traded security does not trade on a particular day, then the mean between the last quoted closing bid and asked price will be used. Prices denominated in foreign currencies are converted to U.S. dollar equivalents using current exchange rates deemed appropriate for the Fund, which approximates fair value.

If a market price is not readily available or is deemed not to reflect market value, the Fund will determine the price of the security held by the Fund based on a determination of the security’s fair value pursuant to policies and procedures approved by the Board. Fair valuation may have the effect of reducing stale pricing arbitrage opportunities presented by the pricing of Shares. However, when the Fund uses fair valuation to price securities, it may value those securities higher or lower than another fund would have priced the security. Also, the use of fair valuation may cause the Shares’ NAV performance to diverge from the Shares’ market price and from the performance of various benchmarks used to compare the Fund’s performance because benchmarks generally do not use fair valuation techniques. Because of the judgment involved in fair valuation decisions, there can be no assurance that the value ascribed to a particular security is accurate.

Subject to its oversight, the Board has delegated primary responsibility for determining or causing to be determined the value of the Fund's investments to the Adviser, pursuant to the Trust's valuation policy and procedures, which have been adopted by the Trust and approved by the Board. In accordance with Rule 2a-5 under the 1940 Act, the Board designated the Adviser as the "valuation designee" of the Fund. If the Adviser, as valuation designee, determines that reliable market quotations are not readily available for an investment, the investment is valued at fair value as determined in good faith by the Adviser in accordance with the Trust's fair valuation policy and procedures. The Adviser will provide the Board with periodic reports, no less frequently than quarterly, that discuss the functioning of the valuation process, if applicable, and that identify issues and valuation problems that have arisen, if any. As appropriate, the Adviser and the Board will review any securities valued by the Adviser in accordance with the Trust's valuation policies during these periodic reports.

Repurchase agreements are generally valued at par. Pricing services will be used to determine the value of a fixed income investment. In certain circumstances, short-term instruments may be valued on the basis of amortized cost.

Redeemable securities issued by open-end investment companies are valued at the investment company's applicable net asset value, with the exception of exchange-traded open-end investment companies which are priced as equity securities. Each investment company values securities and other instruments in a manner as described in that investment company's prospectus.

TAXES

The following is a summary of certain additional material tax considerations generally affecting the Fund and its shareholders that are not described in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectus is not intended as a substitute for careful tax planning.

This "Taxes" section is based on the Code and applicable U.S. Treasury Regulations in effect on the date of this SAI. Future legislative, regulatory, or administrative changes, including provisions of current law that sunset and thereafter no longer apply, or court decisions may significantly change the tax rules applicable to the Fund and its shareholders. Any of these changes or court decisions may have a retroactive effect.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, real estate investment trust ("REIT"), insurance company, regulated investment company ("RIC"), individual retirement account ("IRA"), other tax-exempt entity, dealer in securities, or non-U.S. investor. Furthermore, this discussion does not reflect possible application of the alternative minimum tax. Unless otherwise noted, this discussion assumes Shares are held by U.S. shareholders and that such Shares are held as capital assets.

A U.S. shareholder is a beneficial owner of Shares of the Fund that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of its substantial decisions or the trust has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a U.S. person.

A "Non-U.S. investor" is a beneficial owner of Shares of the Fund that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds Shares, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A partner of a partnership holding the Shares should consult its own tax advisor with respect to the purchase, ownership and disposition of Shares by the partnership.

The description below is for general information only and is not tax advice. All investors should consult their own tax advisors as to the U.S. federal, state, local and foreign tax provisions applicable to them.

Taxation of the Fund

The Fund is treated as a separate corporation for U.S. federal income tax purposes. Losses in the Fund do not offset gains in another fund in the Fund Complex and the requirements (other than certain organizational requirements) for qualifying for RIC status as described below are determined at the Fund level rather than the Trust level.

The Fund has elected and intends to qualify each year as a RIC under Subchapter M of the Code. If the Fund so qualifies, the Fund will not be subject to U.S. federal income tax on the portion of its investment company taxable income (that is, generally, taxable interest, dividends, net short-term capital gains, and other taxable ordinary income, net of expenses, without regard to the deduction for dividends paid) and net capital gain (that is, the excess of net long-term capital gains over net short-term capital losses) that it distributes to shareholders.

To qualify for treatment as a RIC, the Fund must satisfy the following requirements:

- **Distribution Requirement** — the Fund must distribute an amount equal to the sum of at least 90% of its investment company taxable income and 90% of its net tax-exempt income, if any, for the tax year (including, for purposes of satisfying this distribution requirement, certain distributions made by the Fund after the close of its taxable year that are treated as made during such taxable year).
- **Income Requirement** — the Fund must derive at least 90% of its gross income from dividends, interest, certain payments with respect to securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived from its business of investing in such stock, securities or currencies and net income derived from qualified publicly traded partnerships (“QPTPs”). See “Tax Treatment of Portfolio Transactions – Investments in Partnerships and QPTPs” below.
- **Asset Diversification Test** — the Fund must satisfy the following asset diversification test at the close of each quarter of the Fund’s tax year: (i) at least 50% of the value of the Fund’s assets must consist of cash and cash items, U.S. government securities, securities of other RICs, and securities of other issuers (as to which the Fund has not invested more than 5% of the value of the Fund’s total assets in securities of an issuer and as to which the Fund does not hold more than 10% of the outstanding voting securities of the issuer); and (ii) no more than 25% of the value of the Fund’s total assets may be invested in the securities of any one issuer (other than U.S. government securities or securities of other RICs) or of two or more issuers which the Fund controls and which are engaged in the same or similar trades or businesses, or, in the securities of one or more QPTPs.

If the Fund fails this Income Requirement as long as such failure was due to reasonable cause and not willful neglect it is subject to a penalty for non-compliance, which is generally the amount by which the non-qualifying income exceeds one-ninth of the qualifying gross income.

Similarly, if the Fund fails the Asset Diversification Test and the failure is not de minimis, the Fund can cure failure if: (i) it files with the U.S. Treasury Department a description of each asset that caused it to fail the Asset Diversification Test; (ii) the failure is due to reasonable cause and not willful neglect; and (iii) the failure is cured within six months (or such other period specified by the U.S. Treasury Department). In such cases, a tax is imposed on the Fund equal to the greater of: (i) \$50,000 or (ii) an amount determined by multiplying the highest rate of tax (currently 21%) by the amount of net income generated during the period of Asset Diversification Test failure by the assets that caused the Fund to fail the Asset Diversification Test.

In some circumstances, the character and timing of income realized by the Fund for purposes of the Income Requirement or the identification of the issuer for purposes of the Asset Diversification Test is uncertain under current law with respect to a particular investment, and an adverse determination or future guidance by the IRS with respect to such type of investment may adversely affect the Fund’s ability to satisfy these requirements. See, “Tax Treatment of Portfolio Transactions” below with respect to the application of these requirements to certain types of investments. In other circumstances, the Fund may be required to sell portfolio holdings in order to meet the Income Requirement, Distribution Requirement, or Asset Diversification Test, which may have a negative impact on the Fund’s income and performance. In lieu of potential disqualification, the Fund is permitted to pay a tax for certain failures to satisfy the Asset Diversification Test or Income Requirement, which, in general, are limited to those due to reasonable cause and not willful neglect.

The Fund may use “equalization accounting” (in lieu of making some cash distributions) in determining the portion of its income and gains that has been distributed. If the Fund uses equalization accounting, it will allocate a portion of its undistributed investment company taxable income and net capital gain to redemptions of Shares and will correspondingly reduce the amount of such income and gains that it distributes in cash. Certain aspects of equalization accounting are uncertain under current law. If the IRS determines that the Fund’s allocation is improper and that the Fund has under-distributed its income and gain for any taxable year, the Fund may be liable for U.S. federal income and/or excise tax. If, as a result of such adjustment, the Fund fails to satisfy the Distribution Requirement, the Fund will not qualify that year as a RIC the effect of which is described in the following paragraph.

If for any taxable year the Fund does not qualify as a RIC, all of its taxable income (including its net capital gain) would be subject to U.S. federal income tax at regular corporate rates, regardless of whether such income was distributed. Distributions to the Fund’s shareholders of such income and gain would not be deductible by the Fund in computing its taxable income. In such event, the Fund’s

distributions, to the extent derived from the Fund’s current or accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends-received deduction available to corporate U.S. shareholders, and non-corporate U.S. shareholders would generally be able to treat such distributions as qualified dividend income eligible for preferential rates of U.S. federal income taxation, if holding period and other requirements are satisfied. Distributions in excess of the Fund’s current and accumulated earnings and profits would be treated first as a return of capital to the extent of a shareholder’s tax basis in its Shares, and any remaining distributions would be treated as capital gain. Failure to qualify as a RIC would thus have a negative impact on the Fund’s income and performance. Subject to savings provisions for certain failures to satisfy the Income Requirement or Asset Diversification Test, which, in general, are limited to those due to reasonable cause and not willful neglect, it is possible that the Fund will not qualify as a RIC in any given tax year. Even if such savings provisions apply, the Fund may be subject to a monetary sanction of \$50,000 or more. Moreover, the Board reserves the right not to maintain the qualification of the Fund as a RIC if it determines such a course of action to be beneficial to shareholders.

To qualify as a RIC in a subsequent taxable year, the Fund would be required to satisfy the Income Requirement, the Asset Diversification Test, and the Distribution Requirement for that year and dispose of any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the nonqualifying year, the Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent five years, unless the Fund made a special election to pay corporate-level tax on such built-in gain at the time of its requalification as a RIC.

Portfolio Turnover. For investors that hold their Shares in a taxable account, a high portfolio turnover rate may result in higher taxes. This is because a fund with a high turnover rate is likely to accelerate the recognition of capital gains and more of such gains are likely to be taxable as short-term rather than long-term capital gains in contrast to a comparable fund with a low turnover rate. Any such higher taxes would reduce the Fund’s after-tax performance. See, “Taxation of Fund Distributions – Distributions of Capital Gain” below. For Non-U.S. investors, any such acceleration of the recognition of capital gains that results in more short-term and less long-term capital gains being recognized by the Fund may cause such investors to be subject to increased U.S. withholding taxes. See, “Non-U.S. Investors – Capital Gain Dividends” and “Short-Term Capital Gain Dividends and Interest Related Dividends” below.

Capital Loss Carryovers. The capital losses of the Fund, if any, do not flow through to shareholders. Rather, the Fund may use its capital losses, subject to applicable limitations, to offset its capital gains without being required to pay taxes on or distribute to shareholders such gains that are offset by the losses. Rules similar to those that apply to capital loss carryovers of individuals apply to RICs. Thus, if the Fund has a “net capital loss” (that is, capital losses in excess of capital gains), the excess (if any) of the Fund’s net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund’s next taxable year, and the excess (if any) of the Fund’s net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund’s next taxable year. Any such net capital losses of the Fund that are not used to offset capital gains may be carried forward indefinitely to reduce any future capital gains realized by the Fund in succeeding taxable years. The amount of capital losses that can be carried forward and used in any single year is subject to an annual limitation if there is a more than 50% “change in ownership” of the Fund. An ownership change generally results when shareholders owning 5% or more of the Fund increase their aggregate holdings by more than 50% over a three-year look-back period. An ownership change could result in capital loss carryovers being used at a slower rate, thereby reducing the Fund’s ability to offset capital gains with those losses. An increase in the amount of taxable gains distributed to the Fund’s shareholders could result from an ownership change. The Fund undertakes no obligation to avoid or prevent an ownership change, which can occur in the normal course of shareholder purchases and redemptions or as a result of engaging in a tax-free reorganization with another fund. Moreover, because of circumstances beyond the Fund’s control, there can be no assurance that the Fund will not experience, or has not already experienced, an ownership change. Additionally, if the Fund engages in a tax-free reorganization with another fund, the effect of these and other rules not discussed herein may be to disallow or postpone the use by the Fund of its capital loss carryovers (including any current year losses and built-in losses when realized) to offset its own gains or those of the other fund, or vice versa, thereby reducing the tax benefits Fund shareholders would otherwise have enjoyed from use of such capital loss carryovers.

At January 31, 2026, the Fund had accumulated short-term and long-term capital loss carryforwards in the amounts provided in the table below. These amounts do not expire.

Short-Term	Long-Term
\$(834,971)	\$—

Deferral of Late Year Losses. The Fund may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining the Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and

profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year (see, “Taxation of Fund Distributions – Distributions of Capital Gain” below). A “qualified late year loss” includes:

- (1) any net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (“post-October losses”), and
- (2) the excess, if any, of (1) the sum of (a) specified losses incurred after October 31 of the current taxable year, and (b) other ordinary losses incurred after December 31 of the current taxable year, over (2) the sum of (a) specified gains incurred after October 31 of the current taxable year, and (b) other ordinary gains incurred after December 31 of the current taxable year.

The terms “specified losses” and “specified gains” mean ordinary losses and gains from the sale, exchange, or other disposition of property (including the termination of a position with respect to such property), foreign currency losses and gains, and losses and gains resulting from holding stock in a passive foreign investment company (“PFIC”) for which a mark-to-market election is in effect. The terms “ordinary losses” and “ordinary gains” mean other ordinary losses and gains that are not described in the preceding sentence.

Undistributed Capital Gains. The Fund may retain or distribute to shareholders its net capital gain for each taxable year. The Fund currently intends to distribute net capital gains. If the Fund elects to retain its net capital gain, the Fund will be taxed thereon (except to the extent of any available capital loss carryovers) at the highest U.S. federal corporate tax rate (currently 21%). If the Fund elects to retain its net capital gain, it is expected that the Fund also will elect to have shareholders treated as if each received a distribution of its pro rata share of such gain, with the result that each shareholder will be required to report its pro rata share of such gain on its tax return as long-term capital gain, will receive a refundable tax credit for its pro rata share of tax paid by the Fund on the gain, and will increase the tax basis for its Shares by an amount equal to the deemed distribution less the tax credit.

U.S. Federal Excise Tax. To avoid a 4% non-deductible U.S. federal excise tax, the Fund must distribute by December 31 of each year an amount equal to at least: (1) 98% of its ordinary income for the calendar year, (2) 98.2% of capital gain net income (that is, the excess of the gains from sales or exchanges of capital assets over the losses from such sales or exchanges) for the one-year period ended on October 31 of such calendar year, and (3) any prior year undistributed ordinary income and capital gain net income. The Fund may elect to defer to the following year any net ordinary loss incurred for the portion of the calendar year which is after the beginning of the Fund’s taxable year. Also, the Fund will defer any “specified gain” or “specified loss” which would be properly taken into account for the portion of the calendar year after October 31. Any net ordinary loss, specified gain, or specified loss deferred shall be treated as arising on January 1 of the following calendar year. Generally, the Fund intends to make sufficient distributions prior to the end of each calendar year to avoid any material liability for U.S. federal income and excise tax, but can give no assurances that all or a portion of such liability will be avoided. In addition, under certain circumstances, temporary timing or permanent differences in the realization of income and expense for book and tax purposes can result in the Fund having to pay the U.S. federal excise tax.

Foreign Income Tax. Investment income received by the Fund from sources within foreign countries may be subject to foreign income tax withheld at the source and the amount of tax withheld generally will be treated as an expense of the Fund. The United States has entered into tax treaties with many foreign countries which entitle the Fund to a reduced rate of, or exemption from, tax on such income. It is impossible to determine the effective rate of foreign tax in advance since the amount of the Fund’s assets to be invested in various countries is not known. Under certain circumstances, the Fund may elect to pass-through foreign tax credits to shareholders, although it reserves the right not to do so.

Purchase of Shares. As a result of tax requirements, the Trust on behalf of the Fund has the right to reject an order to purchase Shares if the purchaser (or group of purchasers acting in concert with each other) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to section 351 of the Code, the Fund would have a basis in the Deposit Securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial Share ownership for purposes of the 80% determination.

Taxation of Fund Distributions

This section applies to U.S. shareholders.

The Fund anticipates distributing all or substantially all of its investment company taxable income and net capital gain for each taxable year. Distributions by the Fund will be treated in the manner described below regardless of whether such distributions are paid in cash or reinvested in additional Shares of the Fund (or of another fund). The Fund will send you information annually as to the U.S. federal income tax consequences of distributions made (or deemed made) during the year.

Distributions of Net Investment Income. The Fund receives ordinary income generally in the form of dividends and/or interest on its investments. The Fund may also recognize ordinary income from other sources, including, but not limited to, certain gains on foreign currency-related transactions. This income, less expenses incurred in the operation of the Fund, constitutes the Fund’s net investment

income from which dividends may be paid to you. If you are a taxable investor, distributions of net investment income generally are taxable as ordinary income to the extent of the Fund's earnings and profits. In the case of the Fund whose strategy includes investing in stocks of corporations, a portion of the income dividends paid to you may be qualified dividends eligible to be taxed at reduced rates. See the discussion below under the headings, "– Qualified Dividend Income for Individuals" and "– Dividends-Received Deduction for Corporations."

Distributions of Capital Gain. The Fund may derive capital gain and loss in connection with sales or other dispositions of its portfolio securities. Distributions derived from the excess of net short-term capital gain over net long-term capital loss will be taxable to you as ordinary income. Distributions paid from the excess of net long-term capital gain over net short-term capital loss will be taxable to you as long-term capital gain, regardless of how long you have held your Shares in the Fund. Any net short-term or long-term capital gain realized by the Fund (net of any capital loss carryovers) generally will be distributed once each year and may be distributed more frequently, if necessary, in order to reduce or eliminate U.S. federal excise or income taxes on the Fund.

Returns of Capital. Distributions by the Fund that are not paid from earnings and profits will be treated as a return of capital to the extent of (and in reduction of) the shareholder's tax basis in its Shares; any excess will be treated as gain from the sale of its Shares. Thus, the portion of a distribution that constitutes a return of capital will decrease the shareholder's tax basis in its Shares (but not below zero) and will result in an increase in the amount of gain (or decrease in the amount of loss) that will be recognized by the shareholder for tax purposes on the later sale of such Shares. Return of capital distributions can occur for a number of reasons including, among others, the Fund over-estimates the income to be received from certain investments such as those classified as partnerships or equity REITs (see, "Tax Treatment of Portfolio Transactions – Investments in U.S. REITs" below).

Qualified Dividend Income for Individuals. Ordinary income dividends reported by the Fund to shareholders as derived from qualified dividend income will be taxed in the hands of individuals and other noncorporate shareholders at the rates applicable to long-term capital gain. "Qualified dividend income" means dividends paid to the Fund (a) by domestic corporations, (b) by foreign corporations that are either (i) incorporated in a possession of the United States, or (ii) are eligible for benefits under certain income tax treaties with the United States that include an exchange of information program, or (c) with respect to stock of a foreign corporation that is readily tradable on an established securities market in the United States. Both the Fund and the investor must meet certain holding period requirements to qualify Fund dividends for this treatment. Specifically, the Fund must hold the stock for at least 61 days during the 121-day period beginning 60 days before the stock becomes ex-dividend. Similarly, investors must hold their Shares for at least 61 days during the 121-day period beginning 60 days before the Fund distribution goes ex-dividend. Income derived from investments in derivatives, fixed-income securities, U.S. REITs, PFICs, and income received "in lieu of" dividends in a securities lending transaction generally is not eligible for treatment as qualified dividend income. If the qualifying dividend income received by the Fund is equal to or greater than 95% of the Fund's gross income (exclusive of net capital gain) in any taxable year, all of the ordinary income dividends paid by the Fund will be qualifying dividend income.

Dividends-Received Deduction for Corporations. For corporate shareholders, a portion of the dividends paid by the Fund may qualify for the corporate dividends-received deduction. The portion of dividends paid by the Fund that so qualifies will be reported by the Fund to shareholders each year and cannot exceed the gross amount of dividends received by the Fund from domestic (U.S.) corporations. The availability of the dividends-received deduction is subject to certain holding period and debt financing restrictions that apply to both the Fund and the investor. Specifically, the amount that the Fund may report as eligible for the dividends-received deduction will be reduced or eliminated if the shares on which the dividends earned by the Fund were debt-financed or held by the Fund for less than a minimum period of time, generally 46 days during a 91-day period beginning 45 days before the stock becomes ex-dividend. Similarly, if your Shares are debt-financed or held by you for less than a 46-day period then the dividends-received deduction for Fund dividends on your Shares may also be reduced or eliminated. Even if reported as dividends eligible for the dividends-received deduction, all dividends (including any deducted portion) must be included in your alternative minimum taxable income calculation. Income derived by the Fund from investments in derivatives, fixed-income and foreign securities generally is not eligible for this treatment.

Realized but Undistributed Income and Gains, and Net Unrealized Appreciation of Portfolio Securities. At the time of your purchase of Shares, the Fund's net asset value may reflect undistributed income, undistributed capital gains, or net unrealized appreciation of portfolio securities held by the Fund. A subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable, and would be taxed as ordinary income (some portion of which may be taxed as qualified dividend income), capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. The Fund may be able to reduce the amount of such distributions from capital gains by utilizing its capital loss carryovers, if any.

Pass-Through of Foreign Tax Credits. If more than 50% of the Fund's total assets at the end of a fiscal year is invested in foreign securities, the Fund may elect to pass through to you your pro rata share of foreign taxes paid by the Fund. A "qualified fund of funds"

is a RIC that has at least 50% of the value of its total assets invested in other RICs at the end of each quarter of the taxable year. If the Fund satisfies this alternative qualification threshold, it should also be eligible to make this election. If this election is made, the Fund may report more taxable income to you than it actually distributes. You will then be entitled either to deduct your share of these taxes in computing your taxable income, or to claim a foreign tax credit for these taxes against your U.S. federal income tax (subject to limitations for certain shareholders). The Fund will provide you with the information necessary to claim this deduction or credit on your personal income tax return if it makes this election. No deduction for foreign tax may be claimed by a non-corporate shareholder who does not itemize deductions or who is subject to the alternative minimum tax. Shareholders may be unable to claim a credit for the full amount of their proportionate shares of the foreign income tax paid by the Fund due to certain limitations that may apply. The Fund reserves the right not to pass through to its shareholders the amount of foreign income taxes paid by the Fund. Additionally, any foreign tax withheld on payments made “in lieu of” dividends or interest will not qualify for the pass-through of foreign tax credits to shareholders. See, “Tax Treatment of Portfolio Transactions – Securities Lending” below.

U.S. Government Securities. Income earned on certain U.S. government obligations is exempt from state and local personal income taxes if earned directly by you. States also grant tax-free status to dividends paid to you from interest earned on direct obligations of the U.S. government, subject in some states to minimum investment or reporting requirements that must be met by the Fund. Income on investments by the Fund in certain other obligations, such as repurchase agreements collateralized by U.S. government obligations, commercial paper and federal agency-backed obligations (e.g., GNMA or FNMA obligations), generally does not qualify for tax-free treatment. The rules on exclusion of this income are different for corporations.

Dividends Declared in December and Paid in January. Ordinarily, shareholders are required to take distributions by the Fund into account in the year in which the distributions are made. However, dividends declared in October, November or December of any year and payable to shareholders of record on a specified date in such a month will be deemed to have been received by the shareholders (and made by the Fund) on December 31 of such calendar year if such dividends are actually paid in January of the following year. Shareholders will be advised annually as to the U.S. federal income tax consequences of distributions made (or deemed made) during the year in accordance with the guidance that has been provided by the IRS.

Medicare Tax. A 3.8% U.S. federal Medicare tax is imposed on net investment income earned by certain individuals, estates and trusts. “Net investment income,” for these purposes, means investment income, including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Shares, reduced by the deductions properly allocable to such income. In the case of an individual, the tax will be imposed on the lesser of (i) the shareholder’s net investment income or (ii) the amount by which the shareholder’s modified adjusted gross income exceeds certain thresholds based on filing status. This Medicare tax, if applicable, is reported by you on, and paid with, your U.S. federal income tax return.

Alternative Minimum Tax. As a RIC, the Fund will be subject to the alternative minimum tax (“AMT”), but any items that are treated differently for AMT purposes must be apportioned between the Fund and the shareholders and this may affect U.S. shareholders’ AMT liabilities. The Fund intends in general to apportion these items in the same proportion that dividends paid to each shareholder bear to the Fund’s taxable income, determined without regard to the dividends paid deduction.

Tax-Exempt Shareholders. A tax-exempt U.S. shareholder could recognize unrelated business taxable income (“UBTI”) by virtue of its investment in the Fund if Shares constitute debt-financed property in the hands of the tax-exempt U.S. shareholder. Furthermore, a tax-exempt U.S. shareholder may recognize UBTI if the Fund recognizes “excess inclusion income” derived from direct or indirect investments in residual interests in real estate mortgage investment conduits (“REMICs”) or equity interests in taxable mortgage pools (“TMPs”) if the amount of such income recognized by the Fund exceeds the Fund’s investment company taxable income (after taking into account deductions for dividends paid by the Fund).

In addition, special tax consequences apply to charitable remainder trusts (“CRTs”) that invest in RICs that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. A CRT that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in the Fund that recognize “excess inclusion income.” Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a Share that recognize “excess inclusion income,” then the Fund will be subject to a tax on that portion of its “excess inclusion income” for the taxable year that is allocable to such shareholders, at the highest U.S. federal corporate income tax rate. The extent to which this IRS guidance remains applicable is unclear. To the extent permitted under the 1940 Act, the Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder’s distributions for the year by the amount of the tax that relates to such shareholder’s interest in the Fund. The Fund has not yet determined whether such an election will be made. CRTs and other tax-exempt investors are urged to consult their own tax advisor concerning the consequences of investing in the Fund.

Sales and Redemption of Shares

This section applies to U.S. shareholders.

Sales and redemptions (including redemptions in kind) of Shares are taxable transactions for U.S. federal and state income tax purposes. If you redeem your Shares, the IRS requires you to report any gain or loss on your redemption. If you held your Shares as a capital asset, the gain or loss that you realize will be a capital gain or loss and will be long-term or short-term, generally depending on how long you have held your Shares. Any redemption fees you incur on Shares redeemed will decrease the amount of any capital gain (or increase any capital loss) you realize on the sale. Capital losses in any year are deductible only to the extent of capital gains plus, in the case of a non-corporate taxpayer, \$3,000 of ordinary income.

Taxes on Purchase and Redemption of Creation Units. An Authorized Participant who exchanges equity securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of purchase and the exchanger's aggregate basis in the securities surrendered and any cash paid. A person who exchanges Creation Units for equity securities will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the aggregate market value of the securities received and any cash received. The IRS, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing "wash sales," or on the basis that there has been no significant change in economic position. Persons exchanging securities should consult their own tax advisor with respect to whether wash sale rules apply and when a loss might not be deductible.

Any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as a short-term capital gain or loss if the Shares have been held for one year or less.

If the Fund redeems Creation Units in cash, it may recognize more capital gains than it would had it redeemed Creation Units in-kind.

Tax Basis Information. The Fund is required to provide shareholders with cost basis information on the redemption of any of the shareholder's Shares in the Fund, subject to certain exceptions for exempt recipients. If you hold your Shares through a broker (or other nominee), please contact that broker (nominee) with respect to reporting of cost basis and available elections for your account.

The Fund has selected the highest cost method to calculate cost basis information. Highest cost is a tax lot identification method that selects the Shares with the highest price for sale. It is specifically designed to limit gains. Under the highest cost method, the shareholder's tax lot with the highest cost basis is sold first so as to minimize gains or maximize losses, depending on market movement since the purchase date.

The highest cost method does not consider the length of time you held your Shares. If your Shares consist of several tax lots and they consist of both long- and short-term holdings, highest cost may deliver the lowest gains but not the lowest tax rate, due to the difference between short- and long-term capital gains tax rates.

When selling at a loss, highest cost also fails to distinguish between two positions that may be similar in cost where one is a long-term holding and the other is a short-term holding. You may want to consult a tax advisor as to whether or not the use of the short-term holding is better for your particular situation. Should the market price of the security rise over time, holding the long-term tax lot will mean you will be taxed at long-term capital gains rates, should you sell those securities for a profit. Highest cost is generally an attractive methodology for short-term holdings, except when the market has risen dramatically.

Wash Sales. All or a portion of any loss that you realize on a redemption of your Shares will be disallowed to the extent that you buy other Shares in the Fund (through reinvestment of dividends or otherwise) within 30 days before or after your Share redemption. Any loss disallowed under these rules will be added to your tax basis in the new Shares.

Redemptions at a Loss Within Six Months of Purchase. Any loss incurred on a redemption or exchange of Shares held for six months or less will be treated as long-term capital loss to the extent of any long-term capital gain distributed to you by the Fund on those Shares.

Reportable Transactions. Under U.S. Treasury Regulations, if a shareholder recognizes a loss with respect to the Fund's Shares of certain threshold amounts, the shareholder must file with the IRS a disclosure statement on Form 8886. The fact that a loss is reportable under these Treasury Regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their own tax advisors to determine the applicability of these regulations in light of their individual circumstances.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments through defined contribution plans and other tax-qualified plans. Shareholders should consult their own tax advisors to determine the suitability of Shares as an investment through such plans, and the precise effect of an investment on their particular tax situation.

If you invest in the Fund through an IRA or other retirement plan, you should consult with your own tax advisor on the applicable rules for such IRA or retirement plan with respect to plan qualification requirements, limits on contributions and distributions, and required distributions from IRAs and retirement plans. As an example, there could be tax penalties on distributions from an IRA or retirement plan prior to age 59-1/2. Certain minimum distribution requirements may also apply to IRAs or retirement plans. Failure to follow these requirements and other applicable requirements may result in significant additional taxes and penalties. It is your responsibility to ensure that you comply with these and other requirements.

Tax Treatment of Portfolio Transactions

Set forth below is a general description of the tax treatment of certain types of securities, investment techniques and transactions that may apply to the Fund and, in turn, affect the amount, character and timing of dividends and distributions payable by the Fund to its shareholders. This section should be read in conjunction with the discussion above under “Investment Objective, Investment Strategies and Risks” for a detailed description of the various types of securities and investment techniques that apply to the Fund.

In General. In general, gain or loss recognized by the Fund on the sale or other disposition of portfolio investments will be a capital gain or loss. Such capital gain and loss may be long-term or short-term depending, in general, upon the length of time a particular investment position is maintained and, in some cases, upon the nature of the transaction. Property held for more than one year generally will be eligible for long-term capital gain or loss treatment. The application of certain rules described below may serve to alter the manner in which the holding period for a security is determined or may otherwise affect the characterization as long-term or short-term, and also the timing of the realization, of certain gains or losses.

Certain Fixed Income Investments. Gain recognized on the disposition of a debt obligation purchased by the Fund at a market discount (generally, at a price less than its principal amount) will be treated as ordinary income to the extent of the portion of the market discount that accrued during the period of time the Fund held the debt obligation unless the Fund made a current inclusion election to accrue market discount into income as it accrues. If the Fund purchases a debt obligation (such as a zero-coupon security or payment-in-kind security) that was originally issued at a discount, the Fund generally is required to include in gross income each year the portion of the original issue discount that accrues during such year. Therefore, the Fund’s investment in such securities may cause the Fund to recognize income and make distributions to shareholders before it receives any cash payments on the securities. To generate cash to satisfy those distribution requirements, the Fund may have to sell portfolio securities that it otherwise might have continued to hold or to use cash flows from other sources such as the sale of Shares.

Higher-Risk Securities. To the extent such investments are permissible for the Fund, the Fund may invest in debt obligations that are in the lowest rating categories or are unrated, including debt obligations of issuers not currently paying interest or who are in default. Investments in debt obligations that are at risk of or in default present special tax issues for the Fund. Tax rules are not entirely clear about issues such as when the Fund may cease to accrue interest, original issue discount or market discount, when and to what extent deductions may be taken for bad debts or worthless securities and how payments received on obligations in default should be allocated between principal and income. In limited circumstances, it may also not be clear whether the Fund should recognize market discount on a debt obligation, and if so, what amount of market discount the Fund should recognize. These and other related issues will be addressed by the Fund when, as and if it invests in such securities, in order to seek to ensure that it distributes sufficient income to preserve its status as a RIC and does not become subject to U.S. federal income or excise tax.

Issuer Deductibility of Interest. A portion of the interest paid or accrued on certain high yield discount obligations owned by the Fund may not be deductible to (and thus, may affect the cash flow of) the issuer. If a portion of the interest paid or accrued on certain high yield discount obligations is not deductible, that portion will be treated as a dividend for purposes of the corporate dividends-received deduction. In such cases, if the issuer of the high yield discount obligations is a domestic corporation, dividend payments by the Fund may be eligible for the dividends-received deduction to the extent of the deemed dividend portion of such accrued interest.

Interest paid on debt obligations owned by the Fund, if any, that are considered for U.S. federal income tax purposes to be payable in the equity of the issuer or a related party will not be deductible to the issuer, possibly affecting the cash flow of the issuer.

Foreign Currency Transactions. The Fund’s transactions in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned. This treatment could increase or decrease the Fund’s ordinary income distributions to you and may cause some or all of the Fund’s previously distributed income to be classified as a return of capital. In certain cases, the Fund may make an election to treat such gain or loss as capital.

PFIC Investments. The Fund may invest in securities of foreign companies that may be classified under the Code as PFICs. In general, a foreign company is classified as a PFIC if at least one-half of its assets constitute investment-type assets or 75% or more of its gross

income is investment-type income. When investing in PFIC securities, the Fund intends to mark-to-market these securities under certain provisions of the Code and recognize any unrealized gains as ordinary income at the end of the Fund's fiscal and excise tax years. Deductions for losses are allowable only to the extent of any current or previously recognized gains. These gains (reduced by allowable losses) are treated as ordinary income that the Fund is required to distribute, even though it has not sold or received dividends from these securities. The designation of a foreign security as a PFIC security will cause its income dividends to not qualify for the reduced rate of taxation on qualified dividends when distributed to you by the Fund. Foreign companies are not required to identify themselves as PFICs. Due to various complexities in identifying PFICs, the Fund can give no assurances that it will be able to identify portfolio securities in foreign corporations that are PFICs in time for the Fund to make a mark-to-market election. If the Fund is unable to identify an investment as a PFIC and thus does not make a mark-to-market election, the Fund may be subject to U.S. federal income tax on a portion of any "excess distribution" or gain from the disposition of such Shares even if such income is distributed as a taxable dividend by the Fund to its shareholders. Additional charges in the nature of interest may be imposed on the Fund in respect of deferred taxes arising from such distributions or gains.

Investments in Partnerships and QPTPs. For purposes of the Income Requirement, income derived by the Fund from a partnership that is not a qualified publicly traded partnership ("QPTP") will be treated as qualifying income only to the extent such income is attributable to items of income of the partnership that would be qualifying income if realized directly by the Fund. While the rules are not entirely clear with respect to the Fund investing in a partnership outside a master-feeder structure, for purposes of testing whether the Fund satisfies the Asset Diversification Test, the Fund generally is treated as owning a pro rata share of the underlying assets of a partnership. See, "Taxation of the Fund." In contrast, different rules apply to a partnership that is a QPTP. A QPTP is a partnership (i) the interests in which are traded on an established securities market, (ii) that is treated as a partnership for U.S. federal income tax purposes, and (iii) that derives less than 90% of its income from sources that satisfy the Income Requirement (e.g., because it invests in commodities). All of the net income derived by the Fund from an interest in a QPTP will be treated as qualifying income, but the Fund may not invest more than 25% of its total assets in one or more QPTPs. However, there can be no assurance that a partnership classified as a QPTP in one year will qualify as a QPTP in the next year. Any such failure to annually qualify as a QPTP might, in turn, cause the Fund to fail to qualify as a RIC. Although, in general, the passive loss rules of the Code do not apply to RICs, such rules do apply to the Fund with respect to items attributable to an interest in a QPTP. Fund investments in partnerships, including in QPTPs, may result in the Fund being subject to state, local or foreign income, franchise or withholding tax liabilities.

Securities Lending. While securities are loaned out by the Fund, the Fund generally will receive from the borrower amounts equal to any dividends or interest paid on the borrowed securities. For U.S. federal income tax purposes, payments made "in lieu of" dividends are not considered dividend income. These distributions will neither qualify for the reduced rate of taxation for qualified dividend income nor the dividends received deduction for corporations. Also, any foreign tax withheld on payments made "in lieu of" dividends or interest will not qualify for the pass-through of foreign tax credits to shareholders.

Investments in Convertible Securities. Convertible debt is ordinarily treated as a "single property" consisting of a pure debt interest until conversion, after which the investment becomes an equity interest. If the security is issued at a premium (i.e., for cash in excess of the face amount payable on retirement), the creditor-holder may amortize the premium over the life of the security. If the security is issued for cash at a price below its face amount, the creditor-holder must accrue original issue discount in income over the life of the debt. The creditor-holder's exercise of the conversion privilege is treated as a nontaxable event. Mandatorily convertible debt (e.g., an exchange traded note issued in the form of an unsecured obligation that pays a return based on the performance of a specified market index, exchange currency, or commodity) is often, but not always, treated as a contract to buy or sell the reference property rather than debt. Similarly, convertible preferred stock with a mandatory conversion feature is ordinarily, but not always, treated as equity rather than debt. Dividends received generally are qualified dividend income and eligible for the corporate dividends received deduction. In general, conversion of preferred stock for common stock of the same corporation is tax-free. Conversion of preferred stock for cash is a taxable redemption. Any redemption premium for preferred stock that is redeemable by the issuing company might be required to be amortized under original issue discount principles.

Investments in ETFs. To the extent the Fund invests in ETFs, the Fund generally intends to invest in ETFs that are taxable as RICs under the Code. Accordingly, the income the Fund receives from such ETFs should be qualifying income for purposes of the Fund satisfying the "Income Requirement" (as defined above under the heading "Taxes"). However, the Fund may also invest in one or more ETFs that are not taxable as RICs under the Code and that may generate non-qualifying income for purposes of satisfying the Income Requirement. The Fund anticipates monitoring its investments in such ETFs so as to keep the Fund's non-qualifying income within acceptable limits of the Income Requirement, however, it is possible that such non-qualifying income will be more than anticipated which could cause the Fund to inadvertently fail the Income Requirement thereby causing the Fund to fail to qualify as a RIC. In such a case, the Fund would be subject to the rules described above.

Investments in Securities of Uncertain Tax Character. The Fund may invest in securities the U.S. federal income tax treatment of which may not be clear or may be subject to recharacterization by the IRS. To the extent the tax treatment of such securities or the

income from such securities differs from the tax treatment expected by the Fund, it could affect the timing or character of income recognized by the Fund, requiring the Fund to purchase or sell securities, or otherwise change its portfolio, in order to comply with the tax rules applicable to RICs under the Code.

Backup Withholding

By law, the Fund may be required to backup withhold a portion of your taxable dividends and sales proceeds unless you:

- provide your correct social security or taxpayer identification number,
- certify that this number is correct,
- certify that you are not subject to backup withholding, and
- certify that you are a U.S. person (including a U.S. resident alien).

The Fund also must backup withhold if the IRS instructs it to do so. When backup withholding is required, the amount will be 24% of any distributions or proceeds paid. Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS. Certain payees and payments are exempt from backup withholding and information reporting. The special U.S. tax certification requirements applicable to non-U.S. investors to avoid backup withholding are described under the "Non-U.S. Investors" heading below.

Non-U.S. Investors

This section applies to Non-U.S. investors.

Non-U.S. investors may be subject to U.S. federal withholding and estate tax and are subject to special U.S. federal tax certification requirements. Non-U.S. investors should consult their own tax advisors about the applicability of U.S. federal tax withholding and the use of the appropriate forms to certify their status.

In General. The United States imposes a flat 30% federal withholding tax (or a withholding tax at a lower treaty rate) on U.S. source dividends, including on income dividends, paid to you by the Fund, subject to certain exemptions described below. However, notwithstanding such exemptions from U.S. federal withholding at the source, any dividends and distributions of income and capital gains, including the proceeds from the sale of your Shares, will be subject to U.S. federal backup withholding at a rate of 24% if you fail to properly certify that you are not a U.S. person.

Capital Gain Dividends. In general, capital gain dividends reported by the Fund to shareholders as paid from its net long-term capital gains, other than long-term capital gains realized on disposition of U.S. real property interests (see the discussion below), are not subject to U.S. withholding tax.

Short-Term Capital Gain Dividends and Interest-Related Dividends. Short-term capital gain dividends reported by the Fund to shareholders as paid from its net short-term capital gains, other than short-term capital gains realized on disposition of U.S. real property interests (see the discussion below), generally are not subject to U.S. federal withholding tax. Similarly, dividends reported by the Fund to shareholders as interest-related dividends and paid from its qualified net interest income from U.S. sources generally are not subject to U.S. federal withholding tax. "Qualified interest income" includes, in general, U.S. source (i) bank deposit interest, (ii) short-term original discount, (iii) interest (including original issue discount, market discount, or acquisition discount) on an obligation that is in registered form, unless it is earned on an obligation issued by a corporation or partnership in which the Fund is a 10-percent shareholder or is contingent interest, and (iv) any interest-related dividend from another RIC. The Fund reserves the right to not report amounts of short-term capital gain dividends or interest-related dividends. Additionally, the Fund's reporting of short-term capital gain dividends or interest-related dividends may not be passed through to shareholders by intermediaries who have assumed tax reporting responsibilities for this income in managed or omnibus accounts due to systems limitations or operational constraints.

Net Investment Income from Dividends on Stock and Foreign Source Interest Income Continue to be Subject to Withholding Tax; Foreign Tax Credits. Ordinary dividends paid by the Fund to Non-U.S. investors on the income earned on portfolio investments in (i) the stock of domestic and foreign corporations and (ii) the debt of foreign issuers continue to be subject to U.S. federal withholding tax. Non-U.S. investors may be subject to U.S. federal withholding tax at a rate of 30% on the income resulting from an election to pass-through foreign tax credits to shareholders but may not be able to claim a credit or deduction with respect to the withholding tax for the foreign tax treated as having been paid by them.

Income Effectively Connected with a U.S. Trade or Business. If the income from the Fund is effectively connected with a U.S. trade or business carried on by a Non-U.S. investor, then ordinary income dividends, capital gain dividends and any gains realized upon the

sale or redemption of Shares of the Fund will be subject to U.S. federal income tax at the rates applicable to U.S. citizens or corporations and require the filing of a nonresident U.S. federal income tax return.

Investment in U.S. Real Property. The Foreign Investment in Real Property Tax Act of 1980 (“FIRPTA”) makes non-U.S. persons subject to U.S. federal tax on disposition of a U.S. real property interest (“USRPI”) as if they were U.S. persons. Such gain is sometimes referred to as FIRPTA gain. The Fund may invest in equity securities of corporations that invest in USRPI, which may trigger FIRPTA gain to the Fund’s Non-U.S. investors.

The Code provides a look-through rule for distributions of FIRPTA gain when a RIC is classified as a qualified investment entity. A RIC will be classified as a qualified investment entity only with respect to any distribution by the RIC which is attributable directly or indirectly to a distribution to the RIC from a U.S. REIT (“FIRPTA distribution”) and if, in general, 50% or more of the RIC’s assets consist of interests in U.S. REITs and other U.S. real property holding corporations (“USRPHCs”). If a RIC is a qualified investment entity and the Non-U.S. investor owns more than 5% of a class of Shares at any time during the one-year period ending on the date of the FIRPTA distribution, the FIRPTA distribution to the Non-U.S. investor is treated as gain from the disposition of a USRPI, causing the distribution to be subject to U.S. federal withholding tax at a rate of 15%, and requiring the Non-U.S. investor to file a nonresident U.S. income tax return. In addition, even if the Non-U.S. investor does not own more than 5% of a class of Shares, but the Fund is a qualified investment entity, the FIRPTA distribution will be taxable as ordinary dividends (rather than as a capital gain or short-term capital gain dividend) subject to withholding at 30% or lower treaty rate.

It is currently unclear whether Congress will extend the look-through rules previously in effect before January 1, 2014 for distributions of FIRPTA gain to other types of distributions on or after January 1, 2014 from a RIC to a Non-U.S. investor from the RIC’s direct or indirect investment in USRPI or what the terms of any such extension would be, including whether such extension would have retroactive effect.

U.S. Estate Tax. Transfers by gift of Shares by a Non-U.S. investor who is a nonresident alien individual will not be subject to U.S. federal gift tax. An individual who, at the time of death, is a Non-U.S. investor will nevertheless be subject to U.S. federal estate tax with respect to Shares at the graduated rates applicable to U.S. citizens and residents, unless a treaty exemption applies. If a treaty exemption is available, a decedent’s estate may nonetheless need to file a U.S. federal estate tax return to claim the exemption in order to obtain a U.S. federal transfer certificate.

U.S. Tax Certification Rules. Special U.S. tax certification requirements may apply to Non-U.S. investors both to avoid U.S. federal backup withholding imposed at a rate of 24% and to obtain the benefits of any treaty between the United States and the shareholder’s country of residence. In general, if you are a Non-U.S. investor, you must provide an applicable Form W-8BEN (or other applicable Form W-8) to establish that you are not a U.S. person, to claim that you are the beneficial owner of the income and, if applicable, to claim a reduced rate of, or exemption from, U.S. federal withholding as a resident of a country with which the United States has an income tax treaty. Certain payees and payments are exempt from U.S. federal backup withholding.

The tax consequences to a Non-U.S. investor entitled to claim the benefits of an applicable tax treaty may be different from those described herein. Non-U.S. investors are urged to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund, including the applicability of foreign tax.

Foreign Account Tax Compliance Act (“FATCA”). Payments to a shareholder that is either a foreign financial institution (“FFI”) or a non-financial foreign entity (“NFFE”) within the meaning of the Foreign Account Tax Compliance Act (“FATCA”) may be subject to a generally nonrefundable 30% withholding tax on: (i) income dividends paid by the Fund and (ii) possibly in the future, certain capital gain distributions and the proceeds arising from the sale of Shares paid by the Fund. FATCA withholding tax generally can be avoided: (i) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (ii) by an NFFE, if it: (a) certifies that it has no substantial U.S. persons as owners or (b) if it does have such owners, reports information relating to them. The Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA, generally on an applicable IRS Form W-8.

Effect of Future Legislation or Administrative Changes; Local Tax Considerations

The foregoing general discussion of U.S. federal income tax consequences is based on the Code and the U.S. Treasury Regulations issued thereunder as in effect on the date of this SAI. Future legislative or administrative changes, including provisions of current law that sunset and thereafter no longer apply, or court decisions may significantly change the conclusions expressed herein, and any such changes or decisions may have a retroactive effect with respect to the transactions contemplated herein. Rules of state and local taxation of ordinary income, qualified dividend income and capital gain dividends may differ from the rules for U.S. federal income

taxation described above. Distributions may also be subject to additional state, local and foreign taxes depending on each shareholder's particular situation. Non-U.S. investors may be subject to U.S. tax rules that differ significantly from those summarized above. At the time this SAI was being prepared, various administrative and legislative changes to the U.S. federal tax laws were under consideration. It is not possible to determine at this time whether any of these changes will take place or what the changes might entail. Shareholders are urged to consult their own tax advisors as to the consequences of these and other state and local tax rules affecting investment in the Fund.

FINANCIAL STATEMENTS

The Fund's [Form N-CSR](#) for the fiscal period ended January 31, 2026 is a separate document and the financial statements and accompanying notes appearing therein are incorporated by reference into this SAI. About Glass Lewis

Glass Lewis is the world’s choice for governance solutions. We enable institutional investors and publicly listed companies to make informed decisions based on research and data. We cover 30,000+ meetings each year, across approximately 100 global markets. Our team has been providing in-depth analysis of companies since 2003, relying solely on publicly available information to inform its policies, research, and voting recommendations.

Our customers include the majority of the world’s largest pension plans, mutual funds, and asset managers, collectively managing over \$40 trillion in assets. We have teams located across the United States, Europe, and Asia-Pacific giving us global reach with a local perspective on the important governance issues.

Investors around the world depend on Glass Lewis’ Viewpoint platform to manage their proxy voting, policy implementation, recordkeeping, and reporting. Our industry leading Proxy Paper product provides comprehensive research and voting recommendations weeks ahead of voting deadlines. Public companies can also use our innovative Report Feedback Statement to deliver their opinion on our proxy research directly to the voting decision makers at every investor client in time for voting decisions to be made or changed.

The research team engages extensively with public companies, investors, regulators, and other industry stakeholders to gain relevant context into the realities surrounding companies, sectors, and the market in general. This enables us to provide the most comprehensive and pragmatic insights to our customers.

Summary of Changes for 2026

On an ongoing basis, Glass Lewis extensively reviews and consults with stakeholders and clients on its policy guidelines. Annually, Glass Lewis updates its policy guidelines in accordance with market trends, developments and the results of our ongoing consultations.

Board Diversity

The ESG Policy will now oppose the chair of the nominating committee, regardless of gender, for board gender diversity concerns, rather than only targeting male members of the committee. It has also standardized its approach to this matter such that it will look for boards to ensure that they are 30% diverse, unless a regional requirement requires that boards maintain a higher level, in which case, it will default to that requirement.

Human Rights Considerations

The ESG Policy has streamlined its approach to human rights, and will now oppose the chair of the board in instances that a company has not adopted a human rights policy, instead of requiring that companies be a participant in the United Nations Global Compact (“UNGC”) or adopt a human rights policy that is aligned with the standards set forth by the International Labour Organization (“ILO”) or the Universal Declaration on Human Rights (“UDHR”).

Sustainability Reporting

Given the changing nature of reporting frameworks, the ESG Policy has standardized its approach such that it will now vote against the chair of the committee responsible for overseeing environmental and social issues in instances where companies have not provided comprehensive sustainability reporting. This has replaced the previous policy whereby the ESG Policy will vote against the chair of the board in instances where companies either report against the recommendations of TCFD or in alignment with SASB standards.

Climate Considerations

Although the ESG Policy will continue to vote against the chair of the board in instances where companies have not established any forward-looking GHG emissions reduction targets, it will no longer require that companies adopt a net zero commitment or goal. The ESG Policy will also now vote against the chair of the committee responsible for overseeing environmental and social issues in instances where companies have not disclosed Scope 1 & 2 emissions.

Other Changes

A number of updates have been made to the Glass Lewis Benchmark Policy guidelines, which underpin and inform the ESG Policy. Further details can be found at www.glasslewis.com.

Introduction

Institutional investors are increasingly recognizing the importance of incorporating material environmental, social, and governance (ESG) factors into their investment processes. Active ownership on ESG issues will typically include also applying these considerations to proxy voting practices, and the ESG Policy allows clients to apply these enhanced ESG considerations when voting at the annual and special meetings of their portfolio companies.

The ESG Policy was designed for clients with a strong focus on environmental and social issues or as a supplemental voting policy for ESG-focused funds. This policy is also ideal for investors who would like to vote in a stakeholder-focused manner. Implementation of the ESG Policy may vary market-to-market in accordance with regulatory requirements, corporate governance best practices, and other relevant standards in individual markets.

Board of Directors

Boards are established in order to represent shareholders and protect their interests. The ESG Policy seeks boards that have a record for protecting shareholders and delivering value over the medium- and long-term. Boards that wish to protect and enhance the interests of shareholders should have sufficient levels of independence (the percentage varies by local market practice and regulations), boast a record of positive performance, have directors with diverse backgrounds, and appoint new directors that have a depth of relevant experience.

Board Composition

The ESG Policy examines a variety of elements to the board when voting on director elections. The policy looks at each individual on the board and explores their relationship with the company, the company's executives and with other board members. This is to ensure and determine whether a director has an existing relationship with the company that is likely to impact any decision processes of that board member.

The biographical information provided by the company on the individual director is essential for investors to understand the background and skills of the directors of the board. This information should be provided in the company's documents well in advance of the shareholder meeting, in order to give shareholders sufficient time to analyze the information. In cases where the company fails to disclose the names or backgrounds of director nominees, the ESG Policy may vote against or abstain from voting on the directors' elections.

The ESG Policy will vote in favor of governance structures that will drive positive performance and enhance shareholder value. The most crucial test of a board's commitment to the company and to its shareholders is the performance of the board and its members. The performance of directors in their capacity as board members and as executives of the company, when applicable, and in their roles at other companies where they serve is critical to this evaluation.

Directors are formed into three categories based on an examination of the type of relationship they have with the company. The table below includes a breakdown of how Glass Lewis classifies these director relationships with the company.

Insider	Affiliate	Independent
Someone who serves as a director and as an employee of the company	A director who has a material financial, familial or other relationship with the company, or its executives, but is NOT an employee of the company	No material financial, familial or other current relationships with the company, its executives or other board members except for service
May also include executive chairs (who act as an employee of the company or is paid as an employee of the company)	A director who owns or controls, directly or indirectly 20% or more of the company's voting stock (except where local regulations or best practices set a different threshold).	A director who owns, directly or indirectly less than 10% of the company's voting stock (local regulations and best practices may set a different threshold)
	A director who has been employed by the company within the past 5 calendar years	A director who has not been employed by the company for a minimum of 5 calendar years
	A director who performs material consulting, legal, advisory, accounting or other professional services for the company	A director who is not involved in any Related Party Transactions (RPT) with the company (most common RPTs - consulting, legal, and accounting/advisory services)
	>A director who is involved in an "Interlocking Directorship"	

Common other reasons the ESG Policy will vote against a director:

- (1) A director who attends less than 75% of the board and applicable committee meetings.
- (2) A director who is also the CEO of a company where a serious restatement has occurred after the CEO certified the pre-restatement financial statements.
- (3) An affiliated director when the board is not sufficiently independent in accordance with market best practice standards.
- (4) An affiliate or insider on any of the key committees (audit, compensation, nominating) or an affiliate or insider on any of the key committees and there is insufficient independence on that committee, both of the above can vary in accordance with the markets best practice standards.

The following conflicts of interests may hinder a director's performance and may result in a vote against:

- (1) A director who sits on an excessive number of public company boards (see the relevant market guidelines for confirmation of the excessive amount).
- (2) Director, or a director whose immediate family member, or the firm at which the director is employed, provides material professional services to the company at any time during the past five years.
- (3) Director, or a director whose immediate family member, engages in airplane, real estate or other similar deals, including perquisite type grants from the company.
- (4) Director with an interlocking directorship.
- (5) All board members who served at a time when a poison pill with a term of longer than one year was adopted without shareholder approval within the prior twelve months.
- (6) A director who has received two against recommendations from the Glass Lewis Benchmark Policy for identical reasons within the prior year at different companies.

Board Committee Composition

It is best practice to have independent directors serving on the audit, compensation, nominating and governance committees. As such, the ESG Policy will support boards with this structure and encourage change when this is not the case. However, board committee independence thresholds may vary depending on the market.

With respect to the creation of board committees and the composition thereof, the ESG Policy will generally support shareholder proposals requesting that companies create a committee to oversee material E&S issues, such as committees dedicated to climate change oversight or the oversight of public policy risks. The ESG Policy will also generally support shareholder proposals calling for the appointment of directors with specific expertise to the board, such as those requesting the appointment of an environmental expert or an individual with significant human rights expertise.

Board Diversity, Tenure and Refreshment

The ESG Policy acknowledges the importance of ensuring that the board is comprised of directors who have a diversity of skills, backgrounds, thoughts, and experiences. As such, having diverse boards benefits companies greatly by encompassing an array of different perspectives and insights.

In terms of board tenure and refreshment, the ESG Policy strongly supports routine director evaluations, including independent external reviews, and periodic board refreshment in order to enable a company to maintain a fresh set of ideas and business strategies in an ever-changing world and market. Having directors with diverse experiences and skills can strengthen the position of a company within the market. Therefore, the ESG Policy promotes refreshment within boards, as a lack of refreshment can lead to poor company performance. Thus, the ESG Policy may consider voting against directors with a lengthy tenure (e.g. over 12

years) when we identify significant performance or governance concerns indicating that a fresh perspective would be beneficial and there is no evidence of any plans of future board refreshment.

The ESG Policy will also evaluate a company's policies and actions with respect to board refreshment and diversity. As a part of this evaluation, we will review the diversity of board members and support shareholder proposals to report on or increase board diversity. The nominating and governance committee, as an agent for the shareholders, is responsible for the governance by the board of the company and its executives. In performing this role, the committee is responsible and accountable for selection of objective and competent board members. To that end, the ESG Policy will: (i) vote against members of the nominating committee in the event that the board has an average tenure of over ten years and the board has not appointed a new nominee to the board in at least five years; (ii) vote against the incumbent nominating committee members in instances where the board of a large- or mid-cap company is comprised of fewer than 30% gender-diverse directors, or the local market requirement for gender diversity where higher; or (iii) vote against the members of the nominating committee where there is not at least one gender-diverse director on the board of a small-cap company.

The ESG Policy conducts a further level of analysis for U.S. companies included in the Russell 1000 index. For these companies, the ESG Policy will vote against members of the nominating and governance committee when they receive a "Poor" score in Glass Lewis' Diversity Disclosure Assessment. The Diversity Disclosure Assessment is an analysis of companies' proxy statement disclosure relating to board diversity, skills and the director nomination process. This assessment reflects how a company's proxy statement presents: (i) the board's current percentage of racial/ethnic diversity; (ii) whether the board's definition of diversity explicitly includes gender and/or race/ethnicity; (iii) whether the board has adopted a policy requiring women and minorities to be included in the initial pool of candidates when selecting new director nominees ("Rooney Rule"); and (iv) board skills disclosure.

Director Overboarding

The ESG Policy will generally recommend that shareholders vote against a director who serves as an executive officer (other than executive chair) of any public company while serving on more than one external public company board, a director who serves as an executive chair of any public company while serving on more than two external public company boards, and any other director who serves on more than five public company boards.

Board Size

Although there is not a universally acceptable optimum board size, boards should have a minimum of five directors to ensure sufficient diversity in decision making and to enable the establishment of key committees with independent directors. Further, boards should not be composed of more than 20 directors as the board may suffer as a result of too many voices to be heard and have difficulty reaching consensus on issues with this number of members. As a result, the ESG Policy will generally vote against the chair of the nominating committee at a board with fewer than five directors or more than 20 directors.

Classified Boards

The ESG Policy favors the repeal of staggered boards in favor of the annual election of directors. Staggered boards are generally less accountable to shareholders than annually elected directors to the board. In addition, the annual election of directors encourages board members to focus on protecting the interests of shareholders. Further to this, if shareholders are unsatisfied with board members the annual election of directors allows them to voice these concerns.

Controlled Companies

The ESG Policy allows certain exceptions to the independence standards at controlled companies. The board's main function is to protect shareholder interests, however, when an individual, entity, or group own more than 50% of the voting shares, the interests of majority shareholders are the interests of that entity or individual. As a result, the ESG Policy does not apply the usual two-thirds independence threshold on controlled companies instead it includes the following guidelines:

1. As long as insiders and/or affiliates are connected to the controlling entity, the ESG Policy will accept the presence of non-independent board members.
2. The compensation, nominating, and governance committees do not need to consist solely of independent directors. However, the compensation committee should not have any insider members, but affiliates are accepted.
3. The board does not need an independent chair or an independent lead or presiding director.
4. The audit committee should consist solely of independent directors, regardless of the controlled status of the company.

Significant Shareholders

Significant shareholders are either an individual or an entity which holds between 20-50% of a company's voting power, and the ESG Policy provides that shareholders should be allowed proportional representation on the board and in committees (excluding the audit committee) based on their percentage of ownership.

Director Performance and Oversight

The performance of board members is an essential element to understanding the board's commitment to the company and to shareholders. The ESG Policy will look at the performance of individuals as directors and executives of the company and of other companies where they have served. Often a director's past conduct is indicative of future conduct and performance.

The ESG Policy will typically vote against directors who have served on boards or as executives of companies with records of poor performance, inadequate risk oversight, excessive compensation, audit or accounting-related issues, and other actions or indicators of mismanagement. However, the ESG Policy will also reevaluate the directors based on factors such as the length of time that has passed since the incident, the director's role, and the severity of the issue.

Environmental and Social Oversight and Performance

The ESG Policy considers the oversight afforded to environmental and social issues. The ESG Policy looks to ensure that companies maintain appropriate board-level oversight of material risks to their operations, including those that are environmental and social in nature. When it is clear that these risks have not been properly managed or mitigated, the ESG Policy may vote against members of the board who are responsible for the oversight of environmental and social risks. In the absence of explicit board oversight of environmental and social issues, the ESG Policy may vote against members of the audit committee. In making these determinations, the ESG Policy will take into account the situation at hand, its effect on shareholder value, as well as any corrective action or other response made by the company.

Board-Level Oversight of Environmental and Social Risks

The insufficient oversight of environmental and social issues can present direct legal, financial, regulatory and reputational risks that could serve to harm shareholder interests. As a result, the ESG Policy promotes oversight structures that ensure that companies are mitigating attendant risks and capitalizing on related opportunities to the best extent possible.

To that end, the ESG Policy looks to boards to maintain clear oversight of material risks to their operations, including those that are environmental and social in nature. These risks could include, but are not limited to, matters related to climate change, human capital management, diversity, stakeholder relations, and health, safety & environment.

The ESG Policy will review a company's overall governance practices to identify which directors or board-level committees have been charged with oversight of environmental and/or social issues. Given the importance of the board's role in overseeing environmental and social risks, the ESG Policy will vote against members of the governance committee that fails to provide explicit disclosure concerning the board's role in overseeing these issues.

Climate Risk

Given the importance of companies' mitigation and management of climate-related risks, the ESG Policy includes specific consideration for companies' disclosure of and policies concerning climate change. Specifically, the ESG Policy will vote against the chair of the board in instances where companies have not established any forward-looking GHG emissions reduction targets. In this instance, if the chair of the board is also the company's CEO, the ESG Policy will vote against the chair of the audit committee.

Further, the ESG Policy will oppose the chair of the committee responsible for oversight of environmental and social issues if the company does not have comprehensive sustainability reporting, which is generally defined as reporting on environmental and social issues beyond legal requirements and that is sufficient to allow shareholders to understand a company's environmental and social initiatives and how it manages attendant risks. Additionally, the ESG Policy will vote against these board members if the company has not disclosed their Scope 1 & 2 emissions.

The ESG Policy also takes into consideration investors' growing expectation for robust climate and sustainability disclosures. While all companies maintain exposure to climate-related risks, additional consideration should be given to, and disclosure should be provided by, those companies whose own GHG emissions represent a financially material risk. For companies with this increased risk exposure, the ESG Policy evaluates whether companies are providing clear and comprehensive disclosure regarding these risks, including how they are being

mitigated and overseen. Such information is crucial to allow investors to understand the company's management of this issue as well as the potential impact of a lower carbon future on the company's operations.

In line with this view, the ESG Policy will carefully examine the climate-related disclosures provided by large-cap companies with material exposure to climate risk stemming from their own operations,¹ as well as companies where their emissions, climate impacts, or stakeholder scrutiny thereof, represent an outsized, financially material risk, in order to assess whether they have produced disclosures in line with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), IFRS S2 Climate-related Disclosures, or other equivalent climate reporting framework. The ESG Policy will also assess whether these companies have disclosed explicit and clearly defined board-level oversight responsibilities for climate-related issues. In instances where either (or both) of these disclosures are found to be absent or significantly lacking, the ESG Policy may recommend voting against the chair of the committee (or board) charged with oversight of climate-related issues, or if no committee has been charged with such oversight, the chair of the governance committee. Further, the ESG Policy may extend this recommendation on this basis to additional members of the responsible committee in cases where the committee chair is not standing for election due to a classified board, or based on other factors, including the company's size, industry and its overall governance profile. In instances where appropriate directors are not standing for election, the ESG Policy may, instead, recommend shareholders vote against other matters that are up for a vote, such as the ratification of board acts, or the accounts and reports proposal.

Stakeholder Considerations

In order to drive long-term shareholder value, companies require a social license to operate. A lack of consideration for stakeholders can present legal, regulatory, and reputational risks. With this view, the ESG Policy will vote against the chair of the board in instances where companies have not adopted a human rights policy.

For U.S. companies listed in the S&P 500 index, the ESG Policy will also evaluate whether companies have provided sufficient disclosure concerning their workforce diversity. In instances where these companies have not disclosed their full EEO-1 reports, the ESG Policy will vote against the nominating and governance chair.

Review of Risk Management Controls

The ESG Policy evaluates the risk management function of a public company on a case-by-case basis. Companies, particularly financial firms, should have a dedicated risk committee, or a committee on the board in charge of risk oversight, as well as a chief risk officer who reports directly to that committee, not to the CEO or another executive of the company. When analyzing the risk management practices of public companies, the ESG Policy takes note of any significant losses or write-downs on financial assets and/or structured transactions. In cases where a company has disclosed a sizable loss or write-down, and where the company's board-level risk committee's poor oversight contributed to the loss, the ESG Policy will vote against such committee members on that basis. In addition, in cases where a company maintains a significant level of financial risk exposure but

¹ This policy will generally apply to companies in the following SASB-defined industries: agricultural products, air freight & logistics, airlines, chemicals, construction materials, containers & packaging, cruise lines, electric utilities & power generators, food retailers & distributors, health care distributors, iron & steel producers, marine transportation, meat, poultry & dairy, metals & mining, non-alcoholic beverages, oil & gas, pulp & paper products, rail transportation, road transportation, semiconductors, waste management.

fails to disclose any explicit form of board-level risk oversight (committee or otherwise), the ESG Policy may vote against the chair of the board on that basis.

Slate Elections

In some countries, in particular Italy, companies elect their board members as a slate, whereby shareholders are unable to vote on the election of an individual director, but rather are limited to voting for or against the board as a whole. The ESG Policy will generally support the slate if no major governance or board-related concerns have been raised in the analysis, and the slate appears to support and protect the best interests of all shareholders.

Board Responsiveness

Majority-Supported Shareholder Proposals

The ESG Policy expects clear action from a board when shareholder proposals receive support from a majority of votes cast (excluding abstentions and broker non-votes). This may include fully implementing the request of the shareholder proposal and/or engaging with shareholders on the issue and providing sufficient disclosures to address shareholder concerns. When a board fails to demonstrate appropriate responsiveness to this issue, the ESG Policy will generally recommend against members of the nominating and governance committee.

Significantly Supported Shareholder Proposals

When shareholder proposals receive significant support (generally more than 30% but less than majority of votes cast), an initial level of board responsiveness is warranted. In instances where a shareholder proposal has received at least 30% shareholder support, the ESG Policy will look to boards to engage with shareholders on the issue and provide disclosure addressing shareholder concerns and outreach initiatives.

At controlled companies and companies that have multi-class share structures with unequal voting rights, the ESG Policy will carefully examine the level of approval or disapproval attributed to unaffiliated shareholders when determining whether board responsiveness is warranted.

Separation of the Roles of CEO and Chair

The separation of the positions of CEO and chair creates a better and more independent governance structure than a combined CEO/chair position. The role of executives is to manage the business based on the course charted by the board. Executives should be in the position of reporting and answering to the board for their performance in achieving their goals as set out by the board. This would become more complicated if they also held the position of chair, as it would be difficult for them to fulfil the duty of being both the overseer and policy setter when they, the CEO/chair control both the agenda and boardroom.

The ESG Policy views an independent chair as better able to oversee the executives of the company and set a pro-shareholder agenda without the management conflicts that a CEO and other executive insiders often face. Such oversight and concern for shareholders allows for a more proactive and effective board of directors that is better able to look out for the interests of shareholders.

Furthermore, it is the board's responsibility to select a chief executive to best serve the company and its shareholders and to replace this person when his or her duties have not been appropriately fulfilled. Such a replacement becomes more difficult and happens less frequently when the chief executive is also in the position of overseeing the board.

Even considering the above, the ESG Policy will not vote against CEOs who also chair the board. However, the ESG Policy will generally support separating the positions of CEO and chair whenever the question is posed in the form of a shareholder proposal.

In the absence of an independent chair, the ESG Policy will support the appointment of a presiding or lead independent director with authority to set the agenda for the meeting and to lead sessions. In the case where the company has neither an independent chair nor independent lead director, the ESG Policy may vote against the chair of the governance committee.

Governance Following an IPO or Spin-Off

Companies that have recently completed an initial public offering (IPO), or spin-off should be given adequate time to fully adjust and comply with marketplace listing requirements and meet basic corporate governance standards. The ESG Policy generally allows the company a one-year period following the IPO to comply with these requirements and as such refrains from voting based on governance standards (e.g., board independence, committee membership and structure, meeting attendance, etc.).

However, there are some cases that warrant shareholder action against the board of a company that have completed an IPO or spin-off in the past year. The ESG Policy will evaluate the terms of applicable governing documents when determining the recommendations and whether the shareholders rights will be severely restricted. In order to come to a conclusion the following points will be considered:

1. The adoption of anti-takeover provisions such as a poison pill or classified board;
2. Supermajority vote requirements to amend governing documents;
3. The presence of exclusive forum or fee-shifting provisions;
4. Whether shareholders can call special meetings or act by written consent;
5. The voting standard provided for the election of directors;
6. The ability of shareholders to remove directors without cause;
7. The presence of evergreen provisions in the company's equity compensation arrangements; and
8. The presence of a multi-class share structure which does not afford common shareholders voting power that is aligned with their economic interest.

Anti-takeover provisions can negatively impact future shareholders who (except for electing to buy or sell the stock) are unable to weigh in on matters that might negatively impact their ownership interest. In cases where the anti-takeover provision was adopted prior to the IPO, the ESG Policy may vote against the members of the board who served when it was adopted if the board:

1. Did not also commit to submit the anti-takeover provision to a shareholder vote at the company's next shareholder meeting following the IPO; or
2. Did not provide a sound rationale or sunset provision for adopting the anti-takeover provision.

Financial Reporting

Accounts and Reports

Excluding situations where there are concerns surrounding the integrity of the statements/reports, the ESG Policy will generally vote for Accounts and Reports proposals.

Where the required documents have not been published at the time that the vote is cast, the ESG Policy will typically abstain from voting on this proposal.

Income Allocation (Distribution of Dividends)

The ESG Policy will generally vote for proposals concerning companies' distribution of dividends. However, particular scrutiny will be given to cases where the company's dividend payout ratio is exceptionally low or excessively high relative to its peers, and where the company has not provided a satisfactory explanation for this disparity.

Appointment of Auditors and Authority to Set Fees

The role of the auditor is crucial in protecting shareholder value. Like directors, auditors should be free from conflicts of interest and should assiduously avoid situations that require them to make choices between their own interests and the interests of the shareholders. Because of the importance of the role of the auditor, rotating auditors is an important safeguard against the relationship between the auditor and the company becoming too close, resulting in a lack of oversight due to complacency or conflicts of interest. Accordingly, the ESG Policy will vote against auditor ratification proposals in instances where it is clear that a company's auditor has not been changed for 20 or more years.

In instances where a company has retained an auditor for fewer than 20 years, the ESG Policy will generally support management's recommendation for the selection of an auditor, as well as the board's authority to fix auditor fees. However, there are a number of exceptions to this policy, and the ESG Policy will vote against the appointment of the auditor and/or the authorization of the board to set auditor fees in the following scenarios:

- The independence of an incumbent auditor or the integrity of the audit has been compromised.
- Audit fees combined with audit-related fees total less than one-half of total fees.
- There have been any recent restatements or late filings by the company and responsibility for such can be attributed to the auditor (e.g., a restatement due to a reporting error).
- The company has aggressive accounting policies.
- The company has poor disclosure or lack of transparency in financial statements.
- There are other relationships, or issues of concern, with the auditor that might suggest a conflict of interest.
- The company is changing auditors as a result of a disagreement between the company and the auditor on a matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures.

Compensation

Compensation Reports and Compensation Policies

Depending on the market, compensation report and policy vote proposals may be either advisory or binding (e.g. in the UK a non-binding compensation report based upon the most recent fiscal year is voted upon annually, and a forward-looking compensation policy will be subject to a binding vote every three years).

In all markets, company filings are evaluated closely to determine how well information pertinent to compensation practices has been disclosed, the extent to which overall compensation is tied to performance, which performance metrics have been employed, as well as how the company's remuneration practices compare to that of its peers.

The ESG Policy will vote against the approval of a compensation report or policy in the following scenarios:

- There is a significant disconnect between pay and performance;
- Performance goals and metrics are inappropriate or insufficiently challenging;
- There is a lack of disclosure regarding performance metrics as well as a lack of clarity surrounding the implementation of these metrics.
- Short-term (e.g., generally less than three year) performance measurement is weighted excessively in incentive plans;
- Excessive discretion is afforded to, or exercised by, management or the Compensation Committee to deviate from defined performance metrics and goals in determining awards;
- Ex gratia or other non-contractual payments have been made and the reasoning for this is inadequate.
- Guaranteed bonuses are established;
- Egregious or excessive bonuses, equity awards or severance payments have been granted;
- Excessive increases (e.g. over 10%) in fixed payments, such as salary or pension entitlements, that are not adequately justified
- Where there is an absence of structural safeguarding mechanisms such as clawback and malus policies included in the Incentive plan.

Linking Compensation to Environmental and Social Issues

On top of Glass Lewis' robust evaluation of companies' compensation plans, the ESG Policy will evaluate if, and to what extent, a company has provided a link between compensation and environmental and social criteria. In most markets, should a company not provide any environmental or social considerations in its remuneration scheme and serious pay-for-performance concerns have been identified, the ESG Policy will vote against the proposed plan. The ESG Policy will also support shareholder resolutions requesting the inclusion of sustainability metrics in executive compensation plans.

Long-Term Incentive Plans

The ESG Policy recognizes the value of equity-based incentive programs. When used appropriately, they provide a means of linking an employee's pay to a company's performance, thereby aligning their interests with those of

shareholders. In addition, equity-based compensation can be an effective way to attract, retain and motivate key employees.

In order to allow for meaningful shareholder review, incentive programs should generally include:

- (i) specific and appropriate performance goals;
- (ii) a maximum award pool; and
- (iii) a maximum award amount per employee.

In addition, the payments made should be reasonable relative to the performance of the business and total compensation paid to those included under the plan should be in line with compensation paid by the company's peers.

Performance-Based Equity Compensation

The ESG Policy supports performance-based equity compensation plans for senior executives; where it is warranted by both their performance, and that of the company. While it is unnecessary to base equity-based compensation for all employees to company performance, placing such limitations on grants to senior executives is considered advisable (although in specific scenarios equity-based compensation granted to senior executives without performance criteria is acceptable under Benchmark Policy guidelines, such as in the case of moderate incentive grants made in an initial offer of employment). While it is not uncommon for a board to state that tying equity compensation to performance goals may hinder them in attracting, and retaining, talented executives, the ESG Policy takes the stance that performance-based compensation aids in aligning executive interests to that of shareholders, and as such will support the company in achieving its objectives.

The ESG Policy will generally vote in favor of all performance-based option or share schemes; with the exception of plans that include a provision to allow for the re-testing of performance conditions; for which a vote against is recommended.

Director Compensation

The ESG Policy supports non-employee directors receiving an appropriate form, and level, of compensation for the time and effort they spend serving on the board and its committees; and director fees being at a level that allows a company to retain and attract qualified individuals. The ESG Policy compares the cost of director compensation to that of peer companies with similar market capitalizations in the same country so that compensation plans may be evaluated thoroughly, and a fair vote outcome reached.

Retirement Benefits for Directors

The ESG Policy will typically vote against the granting of retirement benefits to non-executive directors. Such extended payments can impair the objectivity and independence of these board members. Initial, and annual fees should be of a level that provides appropriate compensation to directors throughout their service to the company.

LINKS ON EXECUTIVE COMPENSATION

As a general rule, shareholders should not seek to micromanage executive compensation programs. Such matters should be left to the board's compensation committee. The election of directors, and specifically those who sit on the compensation committee, is viewed as an appropriate mechanism for shareholders to express their support, or disapproval, of board policy on this issue. Further, companies whose pay-for-performance is in line with their peers should be granted the flexibility to compensate their executives in a manner that drives sustainable growth. However, the ESG Policy favors performance-based compensation as an effective means of motivating executives to act in the best interests of shareholders. Performance-based compensation may be limited if a chief executive's pay is capped at a low level rather than flexibly tied to the performance of the company.

Pay-for-Performance

An integral part of a well-structured remuneration package is a successful link between pay and performance. Glass Lewis's proprietary pay-for-performance model, which serves as the ESG Policy's primary quantitative analysis, was developed to better evaluate the link between pay and performance. Generally, remuneration and performance are measured against a peer group of appropriate companies that may overlap, to a certain extent, with a company's self-disclosed peers. This quantitative analysis provides a consistent framework and historical context to determine how well companies link executive remuneration to relative performance. Glass Lewis's methodology takes a scorecard-based approach in evaluating pay-and-performance alignment. Final alignment scores are determined by the weighted sum of up to five tests, each with their own severity rating. Overall scores and ratings range as follows:

- Severe Concern: 0 to 20 points
- High Concern: 21 to 40 points
- Medium Concern: 41 to 60 points
- Low Concern: 61 to 80 points
- Negligible Concern: 81 to 100 points

The individual tests are as follows:

- Total vested CEO pay vs. TSR;
- Total vested CEO pay vs. financial performance;
- CEO STI payouts (in relation to maximum opportunity) vs. TSR;
- CEO LTI payouts (in relation to maximum opportunity) vs. TSR;
 - Alternative test for STI and LTI payout: Total vested CEO pay vs. company size measures as multiple of median;
- Qualitative downward modifier.

Separately, a specific comparison between the company's executive pay and its peers' executive pay levels may be discussed in the analysis of the remuneration report proposals for additional insight into the score. Likewise, a specific comparison between the company's performance and its peers' performance may be reflected in the analysis for further context.

Companies that demonstrate a weaker link (an overall rating of "Severe Concern" or "High Concern") are more likely to receive a negative recommendation under the ESG Policy; however, other qualitative factors are

considered in developing recommendations as each company is reviewed on a case-by-case basis. These additional factors include, but are not limited to, the consideration of competitors based in other regions (and, therefore, excluded from the peer group utilized by the model), overall incentive structure, trajectory of the program and disclosed future changes, the operational, economic and business context for the year in review, reasonable payout levels, or the presence of compelling disclosure explaining any deviation from best practice. These factors may provide sufficient rationale for the ESG Policy to recommend in favor of a proposal, even there is an identified disconnect between pay and performance.

Governance Structure

Amendments to the Articles of Association

The ESG Policy will evaluate proposed amendments to a company's articles of association on a case-by-case basis. The ESG Policy is generally opposed to bundling several amendments under a single proposal as it prevents shareholders from evaluating each amendment on its own merits. In cases, where it is a bundled amendment, the ESG Policy will evaluate each amendment individually and only support the proposal if, in the aggregate, the amendments are in the best interests of shareholders.

Anti-Takeover Measures

Multi-Class Share Structures

The ESG Policy views multi-class share structures as not in the best interests of shareholders and, instead, is in favor of one vote per share. This structure operates as a safeguard for common shareholders by ensuring that those who hold a significant minority of shares are still able to weigh in on issues set forth by the board. The economic stake of each shareholder should match their voting power and that no small group of shareholders, family or otherwise, should have differing voting rights from those of all other shareholders.

The ESG Policy considers a multi-class share structure as having the potential to negatively impact the overall corporate governance of a company. Companies should have share class structures that protect the interests of non-controlling shareholders as well as any controlling entity. Therefore, the ESG Policy will generally vote in favor of recapitalization proposals to eliminate multi-class share structures. Similarly, the ESG Policy will typically vote against proposals to adopt a new class of common stock.

Cumulative Voting

When voting on cumulative voting proposals, the ESG Policy will factor in the independence of the board and the company's governance structure. Cumulative voting is often found on ballots at companies where independence is lacking and where the appropriate balances favoring the interests of shareholders are not in place. However, cumulative voting increases the ability of minority shareholders to elect a director by allowing shareholders to cast as many shares of stock they own multiplied by the number of directors to be elected. Cumulative voting allows shareholders to cast all their votes for one single nominee, or a smaller number of nominees than up for election, thereby raising the likelihood of electing one or more of their preferred nominees to the board. Accordingly, cumulative voting generally acts as a safeguard for shareholders by ensuring that those who hold a significant minority of shares can elect a candidate of their choosing to the board. As a result, the ESG Policy will typically vote in favor proposals concerning cumulative voting.

However, in the case where the company has adopted a true majority vote standard (i.e., where a director must receive a majority of votes cast to be elected, as opposed to a modified policy indicated by a resignation policy only), the ESG Policy will vote against cumulative voting proposals due to the incompatibility of the two election methods. For companies, that have not adopted the true majority vote standard but have some form of majority voting, the ESG Policy will also vote against cumulative voting proposals if the company has also not adopted anti-takeover provisions and has been responsive to shareholders.

In instances where a company has not adopted majority voting standards and is facing both an election on the adoption of majority voting and a proposal to adopt cumulative voting, the ESG Policy will support only the majority voting proposal.

Fair Price Provision

Fair price provisions, which are rare, require that certain minimum price and procedural requirements to be observed by any party that acquires more than a specified percentage of a corporation's common stock. The intention of this provision is to protect minority shareholder value when an acquirer seeks to accomplish a merger or other transaction which would eliminate or change the rights of the shareholder. Fair price provisions sometimes protect the rights of shareholders in a takeover situation. However, more often than not they act as an impediment to takeovers, potentially limiting gains to shareholders from a variety of transactions that could potentially increase share price. As a result, the ESG Policy will generally oppose fair price provisions.

Supermajority Vote Requirements

The ESG Policy favors a simple majority voting structure except where a supermajority voting requirement is explicitly intended to protect the rights of minority shareholders in a controlled company. In the case of non-controlled companies, supermajority vote requirements act as impediments to shareholder action on ballot items that are critical to their interests. For example, supermajority vote requirements can strongly limit the voice of shareholders in making decisions on critical matters such as the selling of the business. Supermajority vote requirements can also allow small groups of shareholders to overrule and dictate the will of the majority of shareholders. Thus, having a simple majority is appropriate for protecting the rights of all shareholders.

Poison Pills (Shareholder Rights Plan)

The ESG Policy will generally oppose companies' adoption of poison pills, as they can reduce management accountability by substantially limiting opportunities for corporate takeovers. As a result, rights plans can prevent shareholders from receiving a buy-out premium for their stock. Generally, the ESG Policy will vote against these plans to protect their financial interests. While boards should be given wide latitude in directing the activities of the company and charting the company's course, on an issue such as this where the link between the financial interests of shareholders and their right to consider and accept buyout offers is so substantial, shareholders should be allowed to vote on whether or not they support such a plan's implementation. In certain limited circumstances, the ESG Policy will support a limited poison pill to accomplish a particular objective, such as the closing of an important merger, or a pill that contains a reasonable 'qualifying offer' clause.

Increase in Authorized Shares

Adequate capital stock is important to a company’s operation. When analyzing a request for additional shares, the ESG Policy will typically review four common reasons why a company may need additional capital stock:

1. Stock Split	Three Metrics: (a) Historical stock pre-split price (if any) (b) Current price relative to the company’s most common trading price over the past 52 weeks (c) Some absolute limits on stock price (that will either make the split appropriate or would produce an unreasonable price)
2. Shareholder Defenses	Additional authorized shares could be used to bolster takeover defenses such as a poison pill. The proxy filings often discuss the usefulness of additional shares in defending against a hostile takeover.
3. Financing for Acquisitions	Examine whether the company has a history of using stock for acquisitions and attempts to determine what levels of stock have generally been required to accomplish such transactions.
4. Financing for Operations	Review the company’s cash position and its ability to secure financing through borrowing or other means.

The ESG Policy will generally support proposals when a company could reasonably use the requested shares for financing, stock splits and stock dividends, as having adequate shares to allow management to make quick decisions and effectively operate the business is critical. The ESG Policy favors that, when a company is undertaking significant transactions, management will justify its use of additional shares rather than providing a blank check in the form of large pools of unallocated shares available for any purpose.

Generally, the ESG Policy will support proposals to increase authorized shares up to 100% of the number of shares currently authorized unless, after the increase the company would be left with less than 30% of its authorized shares outstanding. In markets where such authorities typically also authorize the board to issue new shares without separate shareholder approval, the ESG Policy applies the policy described below on the issuance of shares.

Issuance of Shares

The issuance of additional shares generally dilutes existing shareholders in most circumstances. Further, the availability of additional shares, where the board has discretion to implement a poison pill, can often serve as a deterrent to interested suitors. In cases where a company has not detailed a plan for use of the proposed shares, or where the number of shares far exceeds those needed to accomplish a detailed plan, the ESG Policy will typically vote against the authorization of additional shares. In the case of a private placement, the ESG Policy will also factor in whether the company is offering a discount to its share price.

Generally, the ESG Policy will support proposals to authorize the board to issue shares (with pre-emptive rights) when the requested increase is equal to or less than the current issued share capital. The authority of these shares should not exceed five years unless that is the market best practice. In accordance with the different market practices, the specific thresholds for share issuance can vary. And, as a result, the ESG Policy will vote on these proposals on a case-by-case basis.

The ESG Policy will also generally support proposals to suspend pre-emption rights for a maximum of 5-20% of the issued ordinary share capital of the company, depending on best practice in the country in which the company is located. This authority should not exceed five years, or less for some countries.

Repurchase of Shares

The ESG Policy typically supports proposals to repurchase shares when the plan includes the following provisions:

1. A maximum number of shares which may be purchased (typically not more than 10-15% of the issued share capital); and
2. A maximum price which may be paid for each share (as a percentage of the market price).

Reincorporation

A company is in the best position to determine the appropriate jurisdiction of incorporation. The ESG Policy will factor in several elements when a management proposal to reincorporate the company is put to vote. These elements include reviewing the relevant financial benefits, generally related to incorporate tax treatment, as well as changes in corporate governance provisions, especially those related to shareholder rights, resulting from the change in domicile. In cases where the financial benefits are too small to be meaningful and there is a decrease in shareholder rights, the ESG Policy will vote against the transaction.

Tax Havens

The ESG Policy evaluates a company's potential exposure to risks related to a company's tax haven policies on an as-needed basis and will support shareholder proposals requesting that companies report on the risks associated with their use of tax havens or that request that companies adopt policies to discontinue operations or withdraw from tax havens. The ESG Policy will also vote against reincorporation proposals when companies have proposed to redomicile in known tax havens.

Advance Notice Requirements

Typically, the ESG Policy will recommend vote against provisions that would require advance notice of shareholder proposals or of director nominees. Advance notice requirements typically range between three to six months prior to the annual meeting. These requirements often make it impossible for a shareholder who misses the deadline to present a shareholder proposal or director nominee that may be in the best interests of the company. Shareholders should be able to review and vote on all proposals and director nominees and are able to vote against proposals that appear with little prior notice. Therefore, by setting advance notice requirements it limits the opportunity for shareholders to raise issues that may arise after the window closes.

Transaction of Other Business

In general, the ESG Policy will vote against proposals that put the transaction of other business items proposal up for vote at an annual or special meeting, as granting unfettered discretion is unwise.

Anti-Greenmail Proposals

The ESG Policy will support proposals to adopt a provision preventing the payment of greenmail, which would serve to prevent companies from buying back company stock at significant premiums from a certain shareholder. The anti-greenmail provision helps to protect the company as it requires that a majority of shareholders other than the majority shareholder approve the buyback, thus, eliminating cases where a majority shareholder could attempt to charge a board a large premium for the shares.

Virtual-Only Shareholder Meetings

A growing number of companies have elected to hold shareholder meetings by virtual means only. The ESG Policy supports companies allowing a virtual option alongside an in-person meeting, so long as the shareholder interests are not compromised. Without proper controls, conducting a virtual-only meeting of shareholders could eliminate or significantly limit the rights of shareholders to confront, and ask management on any concerns they may have. When companies decide to only hold virtual-only meetings, the ESG Policy will examine the level of disclosure provided by the company on the virtual meeting procedures and may vote against members of the nominating and governance committee if the company does not provide disclosure assuring that shareholders will be afforded the same rights and opportunities to participate as they would at an in-person meeting.

Mergers, Acquisitions & Contested Meetings

For merger and acquisition proposals, the ESG Policy undertakes a thorough examination of all elements of the transactions and determine the transaction's likelihood of maximizing shareholder return. In order to make a voting recommendation, the ESG Policy will examine the process conducted, the specific parties and individuals involved in negotiating an agreement, as well as the economic and governance terms of the proposal.

In the case of contested merger situations, or board proxy fights, the ESG Policy will evaluate the plan presented by the dissident party and how, if elected, it plans to enhance or protect shareholder value. The ESG Policy will also consider any concerns presented by the board, including any plans for improving the performance of the company, when making the ultimate recommendation. In addition, the ESG Policy will support shareholder proposals asking a company to consider the effects of a merger, spin-off, or other transaction on its employees and other stakeholders.

Shareholder Proposals

The ESG Policy has a strong emphasis on enhancing the environmental, social and governance performance of companies. Accordingly, the ESG Policy will be broadly supportive of environmental and social shareholder proposals aimed at enhancing a company's policies and performance with respect to such issues. The ESG Policy will carefully examine each proposal's merits in order to ensure it seeks enhanced environmental disclosure and/or practices, and is not conversely aimed at limiting environmental or social disclosure or practices. Accordingly, the ESG Policy will not support proposals aimed at limiting or rescinding companies' ESG-related disclosures, goals or initiatives

Governance Proposals

The ESG Policy supports increased shareholder participation and access to a company and its board of directors. Accordingly, the ESG Policy will generally vote in favor of initiatives that seek to enhance shareholder rights, such as the introduction of majority voting to elect directors, the adoption and amendment of proxy access bylaws, the elimination/reduction of supermajority provisions, the declassification of the board, the submission of shareholder rights' plans to a shareholder vote, and the principle of one share, one vote.

The ESG Policy will also support proposals aimed at increasing the diversity of boards or management as well as those requesting additional information concerning workforce diversity and the adoption of more inclusive nondiscrimination policies. Further, the ESG Policy will support enhanced oversight of environmental and social issues at the board level by supporting resolutions calling for the creation of an environmental or social committee of the board or proposals requesting that the board adopt a subject-matter expert, such as one with deep knowledge and experience in human rights or climate change-related issues. The ESG Policy will also generally vote for proposals seeking to increase disclosure of a company's business ethics and code of conduct, as well as of its activities that relate to social welfare.

Environmental Proposals

The ESG Policy will generally support proposals regarding the environment, including those seeking improved sustainability reporting and disclosure about company practices which impact the environment. The ESG Policy will vote in favor of increased disclosure of a company's environmental risk through company-specific disclosure as well as compliance with international environmental conventions and adherence to environmental principles. Similarly, the ESG Policy will support proposals requesting companies develop greenhouse gas emissions reduction goals, comprehensive recycling programs, and other proactive means to mitigate a company's environmental footprint.

The ESG Policy will also vote for proposals seeking that companies provide certain disclosures or adopt certain policies related to mitigating their climate change-related risks. For example, regardless of industry, the ESG Policy will support proposals requesting that companies disclose information concerning their scenario analyses or that request the company provide disclosure in line with certain globally-recognized environmental and social reporting recommendations. Further, the ESG Policy will support proposals requesting that a company consider energy efficiency and renewable energy sources in its project development and overall business strategy.

The ESG Policy will also evaluate a company's impact on the environment, in addition to the regulatory risk a company may face by not adopting environmentally responsible policies.

Say on Climate

Shareholder Proposals

Beginning in 2021, companies began placing management proposals on their ballots that ask shareholders to vote on their climate transition plans, or a Say on Climate vote. The ESG Policy will generally recommend in favor of shareholder proposals requesting that companies adopt a Say on Climate vote.

Management Proposals

When evaluating management-sponsored votes seeking approval of climate transition plans the ESG Policy looks to the board to provide information concerning the governance of the Say on Climate vote. Specifically, the ESG Policy evaluates whether companies provide sufficient disclosure concerning the board's role in setting strategy in light of this vote, and how the board intends to interpret the vote results for the proposal. In instances where disclosure concerning the governance of the Say on Climate vote is not present, the ESG Policy will either abstain, or, depending on the quality of the plan presented, will vote against the proposal.

The ESG Policy also looks to companies to clearly articulate their climate plans in a distinct and easily understandable document, this disclosure, it is important that companies clearly explain their goals, how their GHG emissions targets support achievement of broader goals (i.e. net zero emissions goals), and any foreseeable obstacles that could hinder their progress on these initiatives.

When evaluating these proposals, the ESG Policy will take into account a variety of factors, including: (i) the request of the resolution (e.g., whether companies are asking shareholders to approve its disclosure or its strategy); (ii) the board's role in overseeing the company's climate strategy; (iii) the company's industry and size; (iv) whether the company's GHG emissions targets and the disclosure of these targets appear reasonable in light of its operations and risk profile; and (iv) where the company is on its climate reporting journey (e.g., whether the company has been reporting and engaging with shareholders on climate risk for a number of years or if this is a relatively new initiative). In addition, the ESG Policy will closely evaluate any stated net zero ambitions or targets. If these goals are absent, the ESG Policy will generally vote against management Say on Climate proposals.

Social Proposals

The ESG Policy will support proposals requesting that a company develop sustainable business practices, such as animal welfare policies, human rights policies, and fair lending policies. Furthermore, the ESG Policy will support reporting and reviewing a company's political and charitable spending as well as its lobbying practices. In addition, the ESG Policy will support proposals requesting that companies cease political spending or associated activities.

The ESG Policy will also generally support enhancing the rights of workers, as well as considering the communities and broader constituents in the areas in which companies do business. Accordingly, the ESG Policy will generally vote for proposals requesting that companies provide greater disclosure regarding impact on local stakeholders, workers' rights and human rights in general. In addition, the ESG Policy will support proposals for

companies to adopt or comply with certain codes of conduct relating to labor standards, human rights conventions, and corporate responsibility at large. The ESG Policy will also support proposals requesting independent verification of a company's contractors' compliance with labor and human rights standards. In addition, the ESG Policy supports the International Labor Organization standards and encourage companies to adopt such standards in its business operations.

The ESG Policy will provide for a review of the performance and oversight of certain directors in instances in which a company is found to have violated international human rights standards. Pursuant to the ESG Policy, if directors have not adequately overseen the overall business strategy of the company to ensure that basic human rights standards are met or if a company is subject to regulatory or legal action with a foreign government or entity due to human rights violations, the Policy may vote against directors taking into account the severity of the violations and the outcome of the claims.

The ESG Policy also generally votes in favor of proposals seeking increased disclosure regarding public health and safety issues, including those related to product responsibility. In particular, the ESG Policy supports proposals calling for the labeling of the use of genetically modified organisms (GMOs), the elimination or reduction of toxic emissions and use of toxic chemicals in manufacturing, and the prohibition of tobacco sales to minors. The ESG Policy also supports proposals seeking a report on a company's drug reimportation guidelines, as well as on a company's ethical responsibility as it relates to drug distribution and manufacture. The ESG Policy further supports proposals related to worker safety and companies' compliance with internationally recognized human rights or safety standards.

Compensation Proposals

The ESG Policy recognizes that ESG performance factors should be an important component of the overall consideration of proper levels of executive performance and compensation. Therefore, the ESG Policy generally votes in favor of proposals seeking to tie executive compensation to performance measures such as compliance with environmental regulations, health and safety regulations, nondiscrimination laws and compliance with international human rights standards. Furthermore, the ESG Policy will generally support proposals that seek to evaluate overall director performance based on environmental and social criteria.

The ESG Policy will support proposals seeking to prohibit or require more disclosure about stock hedging and pledging by executives. The ESG Policy will also generally support proposals requesting that companies adopt executive stock retention policies and prohibiting the accelerated vesting of equity awards. Furthermore, the ESG Policy will vote in favor of shareholder proposals to link pay with performance, to eliminate or require shareholder approval of golden coffins, and to clawback unearned bonuses. Finally, the ESG Policy will support proposals requesting disclosure from companies regarding gender pay inequity and company initiatives to reduce the gap in compensation paid to women compared to men.

This document is intended to provide an overview of the Glass Lewis ESG thematic proxy voting policy. These guidelines are meant to be an option for institutional investors interested in aligning their proxy voting with the named theme and can be fully customized by clients to reflect their investment strategies and views.

The information included herein is not intended to be exhaustive and does not address all potential voting issues. Glass Lewis' proxy voting guidelines, as they generally apply to certain issues or types of proposals, are further explained in supplemental guidelines and reports that are made available on Glass Lewis' website – <http://www.glasslewis.com>. None of Glass Lewis' guidelines have been set or approved by the U.S. Securities and Exchange Commission or any other regulatory body. Additionally, none of the information contained herein is or should be relied upon as investment advice. The content of this document has been developed based on Glass Lewis' experience with proxy voting and corporate governance issues, engagement with clients and issuers, and review of relevant studies and surveys, and has not been tailored to any specific person or entity. Glass Lewis' proxy voting guidelines are grounded in corporate governance best practices, which often exceed minimum legal requirements. Accordingly, unless specifically noted otherwise, a failure to meet these guidelines should not be understood to mean that the company or individual involved has failed to meet applicable legal requirements.
